**Status of Compliance from October-2018 to March-2019 of Environmental Condition laid down by MOEF**

**Tatijharia Bauxite Mine**

The status of compliance of the conditions (as per point no.3) with reference to the environment clearance letter no.J-11015/337/2007-IA. II(M) dated 9.8.2007 of Ministry of Environment & Forests, New Delhi, of Tatijharia Bauxite Mine as under.

**A Specific condition:-**

- (i) The wild life management plan has been approved by competent authority.- Annexure-A
- (ii) We accept the condition.
- (iii) The conservation plan for schedule I fauna have been prepared. The authenticated list of flora and fauna for core and buffer zone is enclosed for perusal please. (Annexure- B).
- (iv) The mining operation is restricted to well above ground water table during currency of mining operation. The ultimate depth of working will be about 15 meters below whereas the water table in the core zone is about 50-52 meters. We undertake that no mining operation is being and will be carried out below water table.
- (v) Top soil is being stacked properly with proper slope and adequate safeguards. Solid waste is being utilized for simultaneous back filling of mined out area for reclamation purpose followed by laying down of top soil on it as applicable. The practice is being followed.
  - (ii) There is no any active dump at present. Overburden is being used for concurrently back filling of the mined out area for reclamation purpose.
  - (iii) Garland drains of appropriate size, gradient and length have been made around the active mining pits coupled with arrester to arrest silt from soil and drains are being maintained. The drains are regularly desilted before the monsoon. The Water so collected are being used for green belt development and watering the mine area. Sump of aduqate capacity is developed.
  - (iv) We undertake that no natural water course is obstructed during mining operation.

  
**Agent of Mines**  
 Samri Mines Division  
 Hindalco Industries Ltd

- (v) Controlled blasting is in practiced in the mine. Wet drilling machine are being used for drilling operations. Nonel & effective blast design are used to control blast vibration and fly rocks. Blasting is carried out only in day hours.
- (vi) Total 43.59 hact. has been afforested till date. The plantation in reclaimed area is being carried out as per plan and is carried out as suggested. The density is being maintained about 2500 plant per hectare with the species like Amla, Accasia, Kasia-Samia, mango, babul, pears, & guava etc. Social forestry is also being encouraged among the local villagers. Year wise plantation is enclosed as annexure-C.
- (vii) The ground water table does not intersect during our mining operation because of shallow depth of mining. Rain water harvesting structure (pond)/well has been constructed in mined out area for the conservation of ground water resources. Coal tar road has been constructed upto pit head to reduce dust problem and use of water for water spraying purpose.
- (viii) Regular water spraying with 12 KL water tanker in the mine lease hold area is being carried out regularly to control air pollution. The ambient air quality is within the stipulated norms.
- (ix) Ground water level is much below the mining horizon. The ground water level exist at 50-60 mts whereas mining depth varies from 15-20mts. Regular monitoring of ground water quality is being carried out. The analysis reports are being submitted to Regional Office, CECB, Ambikapur and Raipur. Water level being monitored.
- (x) Rain water harvesting ponds has been made at lease area.
- (xi) Ground water NOC has been obtained from the competent authority for the domestic purpose. We are not drawing ground water for industrial use, if required; the permission will be taken from competent authority.
- (xii) All efforts are being taken to conserve and protect existing ecological status of the project area. Important measures we are taking for conservation of flora and fauna are as follows.
- a) Company have been provided solar LED torch and florescent jackets to Staff of forest department ,Ambikapur for patrolling and monitoring the movement of wildlife ,encroachment, cutting ,poaching ,fire etc.
- b) Veterinary camp is being conducted for immunization of cattle with the help of block veterinary staff.
- c) Awareness programme related to wildlife conservation is being conducted.

**Agent of Mines**  
Samri Mines Division  
Hindalco Industries Ltd

- d) Eco-development activities like poultry, piggery, bee keeping etc are being organized.
- e) Controlled blasting is being carried out so as reduce vibration and noise. Such operation is being carried out in day time only and its use is minimized.
- f) Plantation is regular activity.
- (xiii) Regular and periodic maintenance of HEMM is being carried out for control of vehicular emission in mines area. The bauxite ore are transported in trucks with tarpaulin cover. Vehicle used for transportation are having valid permit. No overloading of ores for transportation is allowed.
- (xiv) Company has provided with provided personal protective equipment to all workers and training are also being imparted to them for safety & health, sanitation. Health awareness camps including HIV are being organized for all workmen. One doctor having MBBS qualification has been appointed for facilitation of OHS. We have undergone through initial & periodical test of all workers employed in the mines by the certified team. The records related to initial and periodical medical examination of all workmen is being maintained.
- (xv) We accept the condition. IBM is competent authority to approve the final mine closure plan. Based on the present resource estimate, and peak rated production capacity, the tentative balance life of mine is around 12 years. However after completion of further detailed exploration programme, the resource estimate vis-a vis balance life of mine is subject to change. Thus Final closure mine plan will be submitted within prescribed timelines in accordance with law to competent authority.

**(B) General Condition.**

- (i) No change in mining technology and scope of working will be made without approval of MOEF New Delhi. We accept the condition.
- (ii) Calendar plan is being followed and there is not be any change in calendar plan.
- (iii) The suggestion of local forest department is being implemented for conservation of flora and fauna in and around lease hold area. Important measure being implemented for conservation of flora and fauna are as follows.
- a) Company have been provided solar LED torch and florescent jackets to Staff of forest department ,Ambikapur for patrolling and monitoring the movement of wildlife ,encroachment, cutting ,poaching ,fire etc.
- b) Veterinary camp is being conducted for immunization of cattle with the help of block veterinary staff.

  
**Agent of Mines**  
Sami Mines Division  
Hindalco Industries Ltd

- c) Awareness programme related to wildlife conservation is being conducted.
- d) Eco-development activities like poultry, piggery, bee keeping etc are being organized.
- (iv) Ambient Air quality monitoring is being carried out as per guideline and is being followed.
- (v) Data of ambient air quality (RPM, SPM, SO<sub>2</sub>, Nox) are being submitted to CECB and are being submitted to other regulatory authorities as per guidelines. Data of ambient air quality (RPM, SPM, SO<sub>2</sub> and Nox ) from Oct. 18 to March-19 is enclosed as annexure-II.
- (vi) Fugitive dust emission from generating sources is being controlled. The wet drilling, regular water spraying with 12 KL water tanker in the mine lease hold area is being carried out regularly.
- (vii) The noise level in working is being maintained below the limit prescribed. The operators of HEMM are being provided earplug/muffs. The proper maintenance of HEMM is being carried out to control noise emission.
- (viii) No waste water is generated from the mine however as suggested measures will be taken if required. Oil and grease trap is provided before discharge of workshop effluents.
- (ix) Company has provided to all workers with personal protective equipment and training is also being imparted to them for safety & health in our Group vocational training centre-Samri as per guidelines.
- (x) Periodical and Initial medical examination of all workers are being carried out as per provision of Mines Act.
- (xi) Separate Environment cell is already in place at Samri Mines Division headed by Head (Mines) and comprises of suitable qualified persons. Constitution of Environment Management cell is enclosed in Annexure-D.
- (xii) Financial closure plan not applicable as it is an operational mines. In case of final closure of mine, the information will be submitted to Regional Office, Ministry of Environment & Forests, Bhopal.
- (xiii) Adequate fund provision is already earmarked for environmental protection measures and will not be diverted to other purpose. The year wise expenditure is being submitted to concern authorities as per guidelines.
- (xiv) Financial closure plan not applicable as it is an operational mines. In case of final closure of mine, the information will be submitted to Regional Office, Ministry of Environment & Forests, Bhopal.
- (xv) All cooperation is being extended to regulatory authorities.

  
**Agent of Mines**  
Samri Mines Division  
Hindalco Industries Ltd

- (xvi) Although no suggestion/representation has been received by any Panchayat/Local NGO while processing the proposal. However we have forwarded the copy of clearance letter to Panchayat in our area. The copy of same has been already submitted to your good office.
- (xvii) The copy has been displayed by CECB in Surguja Collectorate.
- (xviii) The information regarding environment clearance has been published in two local new papers namely Hari Bhumi & Ambika Vani. The copy of same has been already submitted to your good office.

Hope the above compliance will be found in order.

Yours truly,  
For Hindalco Industries Limited
