MINERALS & MINERALS LIMITED

Regd. Office- Court Road, P.O. & Distt.-Lohardaga, Jharkhand-835302 Tel.-06526-223163

CIN NO. U26990JH1970PLC000875

Date

M&M/LHD/ENV/MoEF/387

Date: 19.11.2021

To,

The Additional Principal Chief Conservator of Forest (C) Ministry of Environment, Forests and Climate Changes Regional Office (ECZ), Ranchi-834002.

Sub: Compliance Report of EC conditions for Bimarla (134.37 ha) Bauxite Mining project of M/s Minerals & Minerals Limited located in Gumla, Jharkhand for the period April'21 to September'21.

Ref: Environmental Clearance letter no J-11015/87/2009-IA.II (M) dated 24th Sep, 2013

Sir,

With reference to the above, we are submitting herewith the Compliance status report of EC conditions for Bimarla (134.37 ha) Bauxite Mining project of M/s Minerals & Minerals Limited located in Gumla, Jharkhand for the period April'21 to September'21.

The lease detail is as below.

ase area (ha)	Production Capacity (MT)	Lease Period
134.37	300000	18.07.2009 to 17.07.2059

Hope you will find the same in order.

Thanking You

Yours Sincerely

FOR Minerals & Minerals Limited

(Basudev Gangopadhyay)

Sr GM (Geology & Environment)

Enclosure: - As Above

CC: ro.ranchi-mef@gov.in, mef@ori.nic.in, mef@nic.in, mef.or@nic.in, mscb.cpcb@nic.in, zokolkatta.cpcb@nic.in, ranchijspcb@gmail.com, roranchi47@gmail.com

Name of the Project

: Bimarla Bauxite Mine (134.526 ha) M/s Minerals & Minerals Ltd

Environment Clearance No & date

: J-11015/87/2009-IA.II (M) dated 24.09.2013

Period of compliance Report

: From 1st April 2021 to 30th September 2021

S No	Specific Condition	Compliance
1	The project proponent shall obtain Consent to Establish and Consent to Operate from the Jharkhand State Pollution Control Board and effectively implement all the conditions stipulated therein.	operate obtained. Implementations of Stipulated conditions are being complied. The Consent to operate is
2	Implementations of conditions laid down in the letter of the State Department of Forests vide dated 11.05.2012 with regard to permission for transportation of ore through the forest land.	down in the letter are being complied with.
3	Necessary wildlife clearance as may be applicable to this project should be obtained. Measures for conservation of flora and fauna observed in the study area shall be undertaken. Wildlife Conservation Plan shall be implemented in consultation with the State Forests and Wildlife Department.	Safeguard Measures already implemented and being implemented as suggested by forest department are as follows: 1. Minimum level of Noise during Mining. 2. Permanent pillars are established within in the mine lease area at 7.5m from the forest boundary 3. Daily water sprinkling on haul road. 4. Transportation is carried out during daytime only. 5. Maintenance of mineral transportation road is being done regularly. 6. Social activities are being
	Adequate measures for control of air pollution in the area shall be taken and it shall be ensured that the pollution levels do not exceed the prescribed limits.	undertaken in nearby areas etc. Measures for control of air pollution in the area are being taken. Important measures are as follows. 1. Water sprinkling on haul roads and at places of source of

5	No see de la constant	pollution. 2. Control blasting practice. 3. Wet drilling is in practice. Monitoring report is attached as Annexure 1.
	No working shall be undertaken in the forest area for which forestry clearance has not been obtained.	
6	Necessary prior clearance, as applicable shall be obtained from CGWA for working below groundwater table.	water table level only and it is not
7	The Company shall submit within 3 months their policy towards Corporate Environment Responsibility which should inter-alia provide for (i) Standard operating process / process to bring into focus any infringement / deviation / violation of the environmental or forest norms / conditions, (ii) Hierarchical system or Administrative order of the company to deal with the environmental issues and for ensuring compliance with the EC conditions and (iii) System of reporting of non-compliances / violations of environmental norms to the Board of Directors of the company and / or shareholders or stakeholders.	Policies towards Corporate Environment Responsibility is in place. The latest Corporate environment policy enumerating corporate responsibilities is attached as Annexure 5. Company has implemented a system in line with the above policies which addresses following points. (i) Standard operating process / process to bring into focus any infringement / deviation / violation of the environmental or forest norms / conditions, (ii) Hierarchical system or Administrative order of the company to deal with the environmental issues and for ensuring compliance with the EC conditions and (iii) System of reporting of non-compliances / violations of environmental norms to the Board of
	The mining operations shall be restricted to above the groundwater table and it should not intersect the groundwater table, In case of working below the groundwater table, prior approval of the Ministry of Environment and Forests and the Central Ground Water Authority shall be obtained, for which a detailed hydrogeological study shall be carried out.	Directors of the company. Mining is confined to above ground water table level only. Mining will not intersect the ground water table. Proper care is being taken in this regard.
	The project proponent shall ensure	No natural watercourse and/or water resource is being and will be obstructed

	water resources shall be obstructed due to any mining operations. The first order streams and the seasonal nallahistoriginating from the mining lease area shall be protected	bodies and sources available in mining
10	The top soil, if any shall temporarily be stored at earmarked site(s) only and it should not be kept unutilized for long; The topsoil shall be used for land reclamation and plantation.	and separately for reclamation, if applicable and being rehabilitated of mined out areas with progress of
11	Monitoring and management of rehabilitated areas should continue until vegetation becomes self-sustaining. Compliance status should be submitted to the Ministry of Environment & Forests and its Regional Office, Bhubaneswar on six monthly basis.	2015-16. Concurrent Backfilling has already been started in scientific manner in line with approved mining plan. The status of backfilling is
S	Catch drains and siltation ponds of appropriate size shall be constructed around the working pit, sub-grade dump, soil and mineral dumps to arrest flow of silt and sediment directly into the agricultural fields and the water bodies. The water so collected should be utilized for watering the mine area, roads, green belt development etc. The drains should be regularly de silted, particularly after monsoon, and maintained properly, Garland drains settling tanks and check dams of appropriate size, gradient and length shall be constructed for both around the mine pit and sub-grade dump to prevent run off of water and flow sediments directly into the agricultural fields and the water bodies and sump capacity should be designed	activities. However, to collect &

13	Dimension of the retaining wall at the toe of suh-grade dump and OB benches within the mine to check run- off and siltation should be based on the rain fall data.	now.
14	The plantation is proposed over an area of 24 ha with 2500 samplings per ha.	Total 3850 saplings have been planted in and around mine area in FY 2021-22. Total 5.40 ha areas has been planted till date.
		Green belt development programme is in progress with progress of mining activities.
15	Effective safeguard measures, such as regular water sprinkling shall be carried out in critical areas prone to air pollution and having high levels of particulate matter such as around loading and unloading point and all transfer points. Extensive water sprinkling shall be carried out on haul roads. It should be ensured that the Ambient Air Quality parameters conform to the norms prescribed by the Central Pollution Control Board in this regard.	Regular water sprinkling is being carried out on haul road and critical areas. Ambient Air Quality parameters conform to the norms. Report is attached as Annexure 1.
16		Suitable conservation measures to augment ground water is being taken as directed in CGWB NOC Viz. Constructing 01 no of water harvesting pond etc. Backfilling and drainage system in mine is maintained in such way that no mine water is discharged outside mine lease area and it is getting recharged in mined out pit only.

17	Regular monitoring of ground wate level and quality shall be carried ou in and around the mine lease by establishing a network of existing wells and installing new piczometer during the mining operation. The	mining purpose. There is no chance of intersection of ground water table during mining operation at present and in future.
	periodic monitoring [(at least four times in a year- pre-monsoon (April-May), monsoon (August), post-monsoon (November) and winter (January); once in each season)] shall be carried out in consultation with the State Ground Water Board/Central Ground Water Authority and the data thus collected may be sent regularly to the Ministry of Environment and Forests and its Regional Office Bhubaneswar, the Central Ground Water Authority and the Regional Director, Central Ground Water Board, If at any stage, it is observed that the groundwater table is getting depleted due to the mining activity, necessary corrective measures shall be carried out.	Piezometer has been installed for monitoring of ground water level. Water quality and level report are attached herewith as Annexure 1.
18	Monitoring of the springs shall be carried out for the quality and quantity of water regularly so as to ensure that there is no adverse impact—on the same due to the project. Records in this regards shall be maintained.	Report is attached as Annexure 1.
19	It shall be ensured that there is no change in the hydrology of the area due to the project.	Noted. We are regularly monitoring the ground water level and no adverse changes is noted.
20	Suitable rainwater harvesting measures on long term basis shall be planned and implemented in consultation with the Regional Director, Central Ground Water Board.	Suitable conservation measures to augment ground water is being taken as directed in CGWB NOC Viz. Constructing 01 no of water harvesting pond etc. This will continue with
21	Appropriate mitigative measures shall be taken to prevent pollution of the all the water bodies, in consultation with the State Pollution Control Board	We are not discharging any water outside mine lease area, all waters are collected in sump. Suitable measures such as, contour bunds are being taken to prevent water pollution. Drains are provided. All precautions are being taken to ensure that water does not flow outside mine lease areas. There is no contamination of water due to mining

-		activities.
22	Vehicular emissions shall be kept under control and regularly monitored. Measures shall be taken for maintenance of vehicles used in mining operations and in transportation of mineral from mine face to the beneficiation plant. The vehicles shall be covered with a tarpaulin and shall not be overloaded.	undertaken to minimize vehicula emission. Measures are being taken to control emission. The vehicles are being covered with tarpaulin while transportation of mineral.
23	blasting operation shall be carried out only during the daytime. Controlled blasting shall be practiced. The mitigative measures for control of ground vibrations and to arrest fly rocks and boulders should be implemented.	Time i.e. 1.00 PM -2.00 PM. Controlled blasting method is in practice. All efforts are being taken to mitigate impact of blasting.
24	Drills shall either be operated with dust extractors or equipped with water injection system.	Wet drilling is in practice.
25	Mineral handling area shall be provided with adequate number of high efficiency dust extraction system. Loading and unloading areas including all the transfer points should also have efficient dust control arrangements. These should be properly maintained and operated.	Two nos, of water tanker have been provided for sprinkling of water on haul roads and active mining areas to arrest fugitive dust. Water spraying at loading, unloading, etc is also being done regularly.
26	Sewage treatment plant shall be installed for the colony. ETP shall also be provided for the workshop and wastewater generated during the mining operation.	As of now there is no colony within the lease hold. Suitable measures will be taken if required in future. There is no effluent generated from this mine.
27	The project authorities should undertake sample survey to generate data on pre project community health status within a radius of 1 km from proposed mine.	As a part of Community Health status check we regularly conduct medical camp in nearby areas since inception of Mine.
2.8	Pre-placement medical examination and periodical medical examination of the workers engaged in the project shall be carried out and records maintained. For the purpose, schedule of health examination of the workers should be drawn and followed accordingly.	Pre-placement medical examination conducted. Periodical medical examination are being carried out in due time.
9	the construction labour within it	Safe drinking water and medical acilities already provided. Other applicable infrastructure will be

	with all necessary infrastructure ar facilities such as fuel for cookin mobile toilets, mobile STP, sa drinking water, medical health car- crèche etc. The housing may be in th form of temporary structures to b removed after the completion of th project.	g, employed are localities only who resides in nearby areas.
30	The critical parameters such as RSPN (Particulate matter with size less that 10pm i.e. PM10) and NOx in the ambient air within the impact zone peak particle velocity at 300n distance or within the nearest habitation, whichever is closer shall be monitored periodically. Further quality of discharged water shall also be monitored [(TDS, DO, PH and Total Suspended Solids (TSS). The monitored data shall be upleaded or the website of the company as well as displayed on a display board at the project site at a suitable location near the main gate of the Company in public domain. The Circular No. 3-20012/1/2006- IA.11 (M) dated 27.05.2009 issued by Ministry of Environment and Forests, which is available on the website of the Ministry www,envfor.nican shall also be referred in this regard for its compliance.	and displayed at mines. Report is enclosed as Annexure 1.
31	A Final Mine Closure Plan along with details of Corpus Fund should be submitted to the Ministry of Environment & Forests 5 years in advance of final mine closure for approval.	Progressive mine closure plan approved along Scheme of Mining. FMCP for total lease area will be prepared and submitted in due time as per applicable guideline and timelines mentioned in MCDR/IBM guideline who are competent authority to approve the same. Based on the present resource estimate, and peak rated production capacity mentioned in EC
No	General Conditions	Mining operation is being carried out. Compliance
	No change in mining technology and scope of working should be made without prior approval of the Ministry of Environment & Forests.	Noted.

2	No change in the calendar plan including excavation, quantum of mineral bauxite and waste should be made.	annature of the state of the st
2		Report is attached herewith as Annexure
3	Conservation measures for protection of flora and fauna in the core and buffer zone should be drawn up in consultation with the local forest and wildlife department.	measures for protection of flora and
		Minimum level of Noise during Mining. Permanent pillars are established within in the mine lease area at 7.5m from the forest boundary. Daily water sprinkling on haul road. Transportation is carried out during daytime only. Maintenance of mineral
		transportation road is being done regularly. 6. Social activities is being undertaken in nearby areas etc.
4	should be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive targets and frequency of monitoring should be undertaken in consultation with the State Pollution Control Board.	We have already established four ambient air quality monitoring stations in core zone as well as buffer zone. Monitoring is being carried out and
	Data on ambient air quality [(RSPM (Particulate matter with size less than 10micron i.e., PM10) and NOvel electrical	Monitoring is being carried out and reported to concern authorities. Report is attached as Annexure-1.

	Centrol Board once in six months.	
6	Fugitive dust emissions from all the sources should be controlled regularly Water spraying arrangement on hau roads, loading and unloading and a transfer points should be provided and properly maintained.	being done to control fugitive dust emissions from loading, unloading an transfer points as applicable.
7	Measures should be taken for control of noise levels below 85 dBA in the work environment. Workers engaged in operations of HEMM, etc. should be provided with ear plugs / muffs.	noise level. PPE's provided to workers.
8	Industrial waste water (workshop and waste water from the Mine) should be properly collected, treated so as to conform to the standards prescribed under GSR 422 (E) dated 19th May, 1993 and 31' December, 1993 or as amended from time to time. Oil and grease trap should be installed before discharge of workshop effluents.	generation from workshop within mine lease area. We are not discharging any wastewater outside mine lease area.
)	Personnel working in dusty areas should wear protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects. Occupational health surveillance program of the workers should be undertaken periodically to observe any contractions due to exposure to dust and take corrective measures, if needed.	Personal protective equipment's have been provided to workers. Safety training is being provided to persons working in mine. Occupational health surveillance program of the workers is being carried out.
0	A separate environmental management cell with suitable qualified personnel directly to the Head of the Organization.	Separate environment management cell with suitable qualified persons is already formulated as Annexure-3.
1	located at Bhubaneswar	The fund earmarked for environmental protection measures is being budgeted separately. Annual expenditure is being reported to the Ministry as Annexure-2.
2	Bhubaneswar regarding date of	Date of start of land development is 21.05.2015 (Opening notice sent to concerned offices) The provision related to financial closure is not applicable as

12	the project by the concerned authorities and the date of start of land development work.	Now Regional office is at Ranchi
13	The Regional Office of this Ministry located at Bhubaneswar shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information / monitoring reports.	Agreed. Currently, the Regional Office is located at Ranchi.
14	The project proponent shall submit six monthly reports on the status of compliance of the stipulated environmental clearance conditions including results of monitored data (both in hard copies as well as by email) to the Ministry of Environment and Forests, its Regional Office Bhubaneswar, the respective Zonal Office of Central Pollution Control Board and the State Pollution Control Board. The proponent shall upload the status of compliance of the environmental clearance conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of the Ministry of Environment and Forests, Bhubaneswar, the respective Zonal Officer of Central Pollution Control Board and the State Pollution Control Board	submitted timely to the Ministry of Environment and Forests, its Regional Office Ranchi, the respective Zonal Office of Central Pollution Control Board and the State Pollution Control Board and also uploaded in Hindalco's website.
15	The State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and the Collector's office/ Tehsildar's Office for 30 days.	Displayed.
16	The environmental statement for each financial year ending 31 March in Form-V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of environmental clearance conditions and	Is being complied.

	shall also be sent to the respective Regional Office of the Ministry of Environment and Forests, Bhubaneswar by e-mail.	
17	The project authorities should advertise at least in two local newspapers of the which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the clearance letter informing that the project has been accorded environmental clearance and a copy of the clearance letter is available with the State Pollution Control Board and also at web site of the Ministry of Environment and Forests at http://envfor.nic.in and a copy of the same should be forwarded to the Regional Office of this Ministry located at Bhubaneswar	Complied. Relevant paper cutting duly submitted.

Office Order

Environmental Cell has been re-constituted at Bimarla Bauxite Mine (Area 134.526 ha) comprising below mentioned team members. The team will ensure compliance of Environment Act, Regulation & Rule in respect of the said mines of Minerals & Minerals Industries Limited.

- 1. Mr. Jitender Kumar (Coordinator)
- 2. Mr. Mihir Barai Geologist
- 3. Mr. Chandan Kumar Dubey Member
- 4. Mr. Abhay Kumar Environment Engineer

The Undersigned is the in charge of above Environment Management Cell constituted for the purpose of ensuring compliances of environmental act rule and regulation for the above mine.

ENVIRONMENT POLICY

We, at Hindalco Industries Limited, operating across the process chain from mining to semi-fabricated products in non-ferrous metals, will strive to continually improve our environmental performance for sustainable operations and responsible growth globally, by integrating sound environmental systems & practices and Pollution Prevention approach.

To achieve this, we shall:

- Continue to comply with all applicable legal and other requirements on environment.
- Continually improve environmental performance by strengthening the Environmental Management System conforming to national /international standards, including setting up and reviewing targets and measuring, monitoring and reporting their progress.
- Allocate sufficient resources such as organisational structure, technology and funds for implementation of the policy and for regular monitoring of performance.
- Adopt pollution prevention approach for all our processes; enhance material efficiency and achieve high productivity.
- Conserve key resources like electricity, coal, water, oil, and raw materials, by promoting efficient technologies and manufacturing process improvements, water conservation programmes, and efficient use of raw materials.
- Adopt energy efficient and cleaner technologies based on techno-economic viability, appropriate to the region in which we operate, and in line with our growth and diversification plans.
- Promote the principles of waste prevention, reduction, reuse, recycling and recovery to minimize waste generation and strengthen the practices for management of wastes.
- Work in partnership with regulatory authorities, relevant suppliers, contractors, distributors and logistics partners and all other stakeholders, as applicable, to understand and initiate improvement actions.
- Engage with internal and external stakeholders including key business partners such as joint venture partners, licensees and outsourcing partners and wider communities, to broaden our understanding of environmental priorities and initiate actions on key environmental challenges.
- Adapt environmental performance over life cycle as an important input to the decision-making processes in the organization.
- Raise environmental awareness at all levels of our operations, through training and effective communication, participation and consultation.
- Communicate this Policy within the Organization. Develop and follow appropriate communication system to inform other stakeholders, as applicable, about our environmental commitment and performance.
- Conduct environmental, health and safety due diligence before undergoing any mergers and acquisitions.

This policy shall be made available to all employees, suppliers, customers, community and other stakeholders, as appropriate.

QUALITY, ENVIRONMENT, OCCUPATIONAL HEALTH & SAFETY POLICY

We, at "Hindalco Industries Limited" are committed to demonstrate excellence in Quality, Environment and Occupational Health & Safety for sustainable development

To achieve this, we shall:

- Ensure customer satisfaction by providing value added products and services;
- Continually establish systems, procedures and best practices with technological interventions;
- Optimize resource consumption particularly- raw materials, energy, water oil and promote pollution prevention;
- Commit to continual improvement by strengthening the Integrated Management System;
- Nurture and sustain safe and healthy work environment;
- Commit to protection of environment including prevention of pollution by reclamation and rehabilitation of mined out areas by utilization of solid waste and developing green belt in the area.
- Comply with applicable legislation in letter and spirit;
- Strengthen competence of employees and business associates through continuous training;
- Commit to the control of Quality & Environment risks through a hierarchy of control.

We shall communicate and make this policy available to all stakeholders
