

chemical solutions

for businesses worldwide

CALCINED ALUMINA								ALUMINA HYDRATE		Uses	
Polishing	Reactives		Fine		Coarse		Fine	Coarse			
	Bond	Ultrafine	Fine	Normal Soda	Medium & Low Soda	Medium & Low Soda			Normal Soda		
									●	Aluminium Sulphate/PAC	Industrial Chemicals
									●	Zeolite	
									●	Aluminium Fluoride	
									●	Other Alumina Chemicals	
								●		Coating	Paper
								●		Filler	
								●		SMC/DMC	Filler Compounding
								●		Rubber	
								●		FRPs and FR belting	
								●		Carpet backing	
							●		●	Glass	Glass
							●		●	Crystal/optical glass	
				●	●	●	●			High Alumina refractory shapes	Refractories
	●	●	●	●	●	●	●			Castables/Monolithics	
	●	●	●	●	●	●	●			Concast refractories	
							●		●	Refractory cement	
	●	●		●	●	●	●			Kiln furnitures & other insulating refractries	
							●			Whitewares	Ceramics
				●			●		●	Enamel/Pigment/Ceramic Colours	
				●			●			Tabular Aluminas	Aggregates
							●			Brown Tabular Aluminas	
				●	●		●			Sintered Mullite	
				●		●	●			Spinel	
							●		●	Synthetic Alumino-Silicates	Technical Ceramics
							●			Fused Aluminas	
				●			●			Brown Fused Aluminas	
●				●			●			Metal/Steel polishing	Abrasive/Polishing
●				●			●			Stone/Granite polishing	
						●	●			HVDC insulators	Insulators/ Electrical Applications
						●	●			High tension insulators	
			●			●	●			Spark plugs	
			●	●	●	●	●			Grinding media	Industrial Ceramics
			●	●	●	●	●			Ceramic liners	
	●	●	●							Alumina substrate	Technical Ceramics
	●	●	●							Ceramic engine components	
	●	●	●							TC sheath	
	●	●	●		●	●				Alumina crucibles/Boats	
	●	●	●	●	●	●	●			Turbines and valves	
				●	●	●	●			Wall and floor tiles	Tiles
				●	●	●	●			Vitaceous homogenous tiles	
				●			●			Glazes	
							●		●	Frits & Colour	Ceramic Fibers
							●			Ceramic blankets	
							●			Ceramic boards	
							●		●	Glass fibers	Miscellaneous
							●		●	Catalyst carriers	
				●	●	●	●			Light weight aggregate
