HINDALCO

HIL/SBM/MOEF/321/2020

29.05.2020

To,  
The Addl. Principal Chief Conservator of Forest (Central),  
MoEF Regional Office (Western Zone)  
Kendriya Paryavaran Bhawan, Link Road-3, Ravisankar Nagar  
Bhopal-462016 (M P)

**Sub:-** Status of compliance of EC condition (Half yearly status of compliance report) in respect of Samri Bauxite Mine (Lease area- 2146.746 Ha.) of M/s Hindalco Industries Limited of Chhattisgarh state for the period from October 2019 to March -2020.

Ref No:- Environment Clearance Letter No-J-11015/353/2007-IA. II (M) dated July 27, 2007

Dear Sir,

We do herewith submit half yearly status of EC compliance report in respect of Samri Bauxite Mine, Lease area - 2146.746 Ha, of M/s Hindalco Industries Limited P.O- Kusmi, Dist- Balrampur-Ramanujganj, Chhattisgarh state, PIN-497224 for the period from October-2019 to March -2020. The lease details is as below:-

Lease area	Production Capacity	Lease Period
2146.746 Ha.	500000 Tonnes	24.06.1998 to 23.06.2048 (50 years)

We are also sending you the soft copy of the report to your good on E mail – moef.ddn@gmail.com for your ready reference.

We trust that the measures taken towards environment safeguard comply with the stipulated environmental conditions.

We assure that we comply all the conditions laid down in the consent letter and also abide to follow all the Rules and Regulations.

Thanking you,

Yours's faithfully

For, Hindalco Industries Limited

(R R P Ambastha)  
Agent of Mines

Agent of Mines  
Samri Mines Division  
Hindalco Industries Ltd

Encl:-

1. Half yearly status of compliance of Environment condition as annexure-I.
2. Environment Status Report from October-2019 to March -2020, enclosed as annexure-II.
3. Renewal copy of Consent to Operate from CECB enclosed as annexure-III.
4. Production report from October-2019 to March -2020 & Year 2019-20 enclosed as annexure-IV.
5. Status report of mined out, reclaimed and afforested land as annexure-V.
6. Actual expenditure incurred in protection of environment from October -2019 to March -2020 as annexure-VI.
7. Soft copy of documents by CD.

C.C.- The Regional Officer, CECB, Ambikapur

**Status of Compliance from October-2019 to March -2020 of Environmental Condition laid down by MOEF**

**Samri Bauxite Mine**

The status of compliance of the conditions with reference to environment clearance letter no. J-11015/353/2007 – IA.(IIM) dated 27.07.2007 of Ministry of Environment & Forest, New Delhi, for Samri Bauxite Mine is as under:-

**COMPLIANCE STATUS**

S.N.	Conditions	Action
<b>A.</b>	<b>Specific Conditions</b>	
i.	Environmental clearance is subject to obtaining clearance under the Wildlife (Protection) Act, 1972 from the competent authority.	The Wild life Management plan has been approved by competent Authority. (Annexure –A)
ii.	Environmental clearance is subject to final order of the Hon'ble Supreme Court of India in the matter of Goa Foundation Vs. Union of India in Writ petition (Civil) No. 460 of 2004 as may be applicable to this project.	Noted
iii.	Conservation plan for schedule I fauna shall be prepared in consultation with Wildlife Department and submitted to the ministry for record.	The Conservation plan for schedule I fauna have been prepared and approved by competent authority & Submitted to ministry – Annexure B.
iv.	A comprehensive report on the details of land oustees, their socio- economic profile and action plan for their rehabilitation including formation of self-help group who can facilitate promotion of economic opportunity to local indigenous people shall be submitted to the Ministry for record.	A copy of report has been submitted to ministry. As a part of CSR activities, company has formed SHG group to facilitate promotion of economic opportunity to local indigenous people. Detailed latest CSR report is enclosed as Annexure E.
v.	Top soil, if any shall be stacked properly with proper slope with adequate safeguards and shall be backfilled (wherever applicable) for reclamation and rehabilitation of mined out area.	Top soil generated during mining operation is being concurrently spread on backfilled area to restore its original forms immediately. However, if required it will be stacked properly with proper slope and adequate safeguards.
vi.	Over burden (OB) shall be stacked at earmarked dump site (s) only and shall not be kept active for long period. The maximum height of the dump shall not exceed 30m, each stage shall preferably be of 10m and over all	As such there is no any active OB dump at present. As per approved Mining Plan, OB generated during mine operation is being utilized for

S.N.	Conditions	Action
	slope of the dump shall not exceed 28°. The OB dump shall be backfilled. In critical areas, use of geo textiles shall be undertaken for stabilization of the dump. The OB dumps shall be scientifically vegetated with suitable native species to prevent erosion and surface run off. Monitoring and management of rehabilitated areas shall continue until the vegetation becomes self-sustaining. Compliance status shall be submitted to the Ministry of Environment & Forests on six monthly basis.	concurrently back filling of the mined out area for reclamation purpose. Small old inactive OB dump has been stabilized by vegetation with suitable native species to prevent erosion and surface run off. Photo attached as Annexure-G
vii.	<p>Garland drains shall be constructed to arrest silt and sediment flows from soil and mineral dump. The water so collected shall be utilized for watering the mine area, roads, greens belt development etc. The drains shall be regularly desilted particularly after monsoon and maintained properly.</p> <p>Garland drain size, gradient and length shall be constructed for both mine pit and for waste dump and sump capacity shall be designed keeping 50% safety margin over and above peak sudden rainfall (based on 50 years data) and maximum discharge in the area adjoining the mine site. Sump capacity shall also provide adequate retention period to allow proper settling of silt material. Sedimentation pits shall be constructed at the corners of the garlands drains and desilted at regular intervals.</p>	<p>Old inactive OB dump has been stabilized by vegetation. Garland drain is provided to arrest silt and sediments flows from above mentioned OB dump. At present there is no any active OB dump. Entire waste generated during mining operation is being simultaneously backfilled in the mined out pit.</p> <p>Garland drains of appropriate size, gradient and length have been made around the active mining pits coupled with arrester to arrest silt from soil and drains are being maintained. The drains are regularly desilted before the monsoon. The Water so collected are being used for green belt development and watering the mine area. Sump of adequate capacity is developed.</p>
viii.	Slope of the mining bench and ultimate pit limit shall be as per the mining scheme approved by Indian Bureau of Mines.	The slope of Mining bench and ultimate pit limit as per provision of approved mining scheme is being maintained.
ix.	Drilling and blasting (if any) shall be conducted by using dust extractors/wet drilling.	Wet drilling/dust extractors are being used in drilling operations.
x.	Plantation shall be raised in 53.87 ha of the ML area, haul roads, OB dump sites etc. Green belt development shall be carried out considering CPCB guidelines including selection of plant species and in consultation with the local DFO/Agriculture Department. Herbs and shrubs shall also form a part of afforestation programme beside tree plantation. The density of the trees shall be around 2500 plants per ha. The company	Total 112.614 Ha has been afforested with native species till date. The plantation in reclaimed area is carried out as per plan and being carried out as suggested by local government authority. The density is being maintained about 2500 plant per hectare with the species like Karanj, accasia, mango, babul, Pears, Jamun, Amla & guava etc.

S.N.	Conditions	Action
	shall involve local people with the help of self help group for plantation.	Moreover, Pears plantation has been carried out over 21.09Ha with 6960 saplings. Social forestry is also being encouraged among the local villagers. Year wise plantation is enclosed as annexure-C.
xi.	The project authority shall implement suitable conservation measures to augment ground water resources in the area in consultation with the Regional Director, Central Ground Water Board.	The ground water table does not intersect our mining operation because of shallow depth of mining. However, Rain water harvesting structure (Ponds and Wells) has been constructed as conservation measures in mined out area for the conservation/augmentation of ground water resources. Photograph of recharge well and other rainwater harvesting structure/Pond is enclosed as annexure -F
xii.	Regular monitoring of ground water level and quality shall be carried out by establishing a network of existing wells and constructing new piezometers during the mining operation. The monitoring shall be carried out four times in a year-pre-monsoon (April-May), monsoon (August), post-monsoon (November) and winter (January) and the data thus collected may be sent regularly to MOEF, Central Ground Water Authority and Regional Director Central Ground Water Board.	The depth of our mining operation varies from 15-20mts. The ground water table is below the depth of our mining operation Hence there is no intersection of groundwater level during course of mining operation. Regular monitoring of ground water quality is being carried out. The analysis reports are being submitted to Regional Office, CEGB, Ambikapur and Raipur. Regular monitoring of ground water level is being carried out and is found below level of mining operation
xiii.	Prior permission from the competent authority shall be obtained for drawl of ground water, if any.	Ground water NOC has been obtained from the competent authority for domestic purpose.
xiv.	Vehicular emissions shall be kept under control and regularly monitored. Vehicles used for transportation ores and others shall have valid permissions as prescribed under Central Motor Vehicle Rules, 1989 and its amendments. Measures shall be taken for maintenance of vehicles used in mining operations and in transportation of mineral. The vehicles transporting ores shall be covered with a tarpaulin or other suitable enclosures so that no dust particles/ fine matters escape during the course of transportation. No	Regular and periodic maintenance of HEMM is being carried out for control of vehicular emission in mines area. The bauxite ore are transported in trucks with tarpaulin cover upto EUP/Railway siding. Vehicle used for transportation are having valid permit. No overloading of ores for transportation is allowed to prevent spillage of material.

S.N.	Conditions	Action
	overloading of ores for transportation shall be committed.	
xv.	A Final Mine Closure Plan, along with details of Corpus Fund, shall be submitted to the Ministry of Environment & Forests, 5 years in advance of final mine closure for approval.	We accept the condition. A progressive mine closure plan approved by IBM is in place. IBM is competent authority to approve the final mine closure plan. Based on the present resource estimate, and peak rated production capacity, the tentative balance life of mine is around 14.5years. However, after completion of further detailed exploration programme, the resource estimate vis-a vis balance life of mine is subject to change. Thus Final Mine closure plan along with details of Corpus fund will be submitted within prescribed timelines in accordance with law to competent authority.
<b>B.</b>	<b>General Conditions</b>	
i.	No change in mining technology and scope of working shall be made without prior approval of the Ministry of Environment & Forests.	Noted.
ii.	No change in the calendar plan including excavation, quantum of mineral bauxite ore shall be made.	Calendar plan (IBM Approved Mining Plan/scheme) prepared for the mine is being followed.
iii.	Conservation measures for protection of flora and fauna in the core and buffer zone shall be drawn up in consultation with the local forest and wildlife department.	Company has already deposited <b>Rs.1.6 crore</b> to competent authority for the implementation of measures for the protection of flora and fauna under approved wild life conservation plan. The suggestions of local forest department are being implemented for conservation of flora and fauna in and around lease hold area. Important measure being implemented for conservation of flora and fauna are as follows. a) Company have been provided solar LED torch and florescent Jackets to Staff of forest department, Ambikapur for patrolling and monitoring the movement of wildlife ,encroachment, cutting ,poaching ,fire etc.

 Hindalco Industries Ltd

S.N.	Conditions	Action
		<p>b) Veterinary camp is being conducted for immunization of cattle with the help of block veterinary staff.</p> <p>c) Awareness programme related to wildlife conservation is being conducted.</p> <p>d) Eco-development activities like poultry, piggery, bee keeping etc. are being organized.</p> <p>e) Controlled blasting is being carried out so as reduce vibration and noise. Such operation is being carried out in day time only and its use is minimized.</p> <p>f) Plantation is regular activity.</p>
iv.	<p>Four ambient air quality-monitoring stations shall be established in the core zone as well as in the buffer zone for RPM, SPM, SO<sub>2</sub>, Nox, monitoring. Location of the stations should be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive targets and frequency of monitoring should be undertaken in consultation with the State Pollution Control Board.</p>	<p>Ambient Air quality monitoring is being carried out as per guideline and is being followed. For this, We have already appointed Anacon Laboratories Pvt. Ltd. NABL accredited by MoEF/NABET for conducting regular environmental monitoring. Analysis Report (from October 19 to March-20) is enclosed as Annexure-II</p>
v.	<p>Data on ambient air quality (RPM, SPM, SO<sub>2</sub>, NOx) should be regularly submitted to the Ministry including its Regional office located at Bhopal and the State Pollution Control Board / Central Pollution Control Board once in six months.</p>	<p>Data of ambient air quality (RPM, SPM, SO<sub>2</sub>, and Nox) are being submitted to CECB and are being submitted to other regulatory authorities as per guidelines. Data of ambient air quality (RPM, SPM, SO<sub>2</sub> and Nox) from October 19 to March-20 is enclosed as annexure-II.</p>
vi.	<p>Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangements on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.</p>	<p>Fugitive dust emission from generating sources is being controlled. The dust extractor, wet drilling, regular water spraying with 12 KL portable water tanker in the mine lease hold area is being carried out regularly. Rainwater collected into the mine pit is being utilized for dust suppression purpose. <b>Black top road has been constructed up to pit</b></p>

 Hindalco Industries Ltd

S.N.	Conditions	Action
		<b>head to reduce dust problem. Photo attached as Annexure-H</b>
vii.	Measures shall be taken for control of noise levels below 85dBA in the work environment. Workers engaged in operations of HEMM, etc. shall be provided with ear plugs / muffs.	The noise level in working area is being maintained below the prescribed limit. As protective measures, workers engaged in operations of HEMM, etc. is being provided with ear plugs / muffs. The proper maintenance of HEMM is being carried out to control noise emission.
viii.	Industrial waste water (workshop and waste water from the mine) should be properly collected, treated so as to conform to the standards prescribed under GSR 422 (E) dated 19 <sup>th</sup> May, 1993 and 31 <sup>st</sup> December, 1993 or as amended from time to time. Oil and grease trap shall be installed before discharge of workshop effluents.	For the waste water generated from workshop, oil and grease separation pits are provided further no waste water is generated from our mining operation.
ix.	Personal working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.	Company has provided adequate personal protective equipment to all workers and it is also ensured that they use the same. Regular awareness training are also being imparted to them for safety & health in our Group vocational training centre as per guidelines. All employees undergo Lung Function Tests during the Periodical Medical Examination. Medical examination. Periodical Medical Examination of employees and contractor workers are being conducted regularly to observe any contractions due to exposure to dust and other occupational hazards.
x.	Occupational health surveillance program of the workers shall be undertaken periodically to observe any contractions due to exposure to dust and take corrective measures, if needed.	Periodical and Initial medical examination of all workers are being carried out as per provision of Mines Act.
xi.	A separate environmental management cell with suitable qualified personnel shall be set-up under the control of a Senior Executive, who will report directly to the Head of the Organization.	Environment cell is already in place at Samri Mines Division headed by Head (Mines) and comprises of suitable qualified persons. Constitution of Environment Management cell is enclosed in Annexure-D.

 Hindalco Industries Ltd

S.N.	Conditions	Action
xii.	The project authorities shall inform to the Regional Office of the Ministry located at Bhopal regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.	Financial closure plan not applicable as it is an operational mines.
xiii.	The funds earmarked for environmental protection measures shall be kept in separate account and should not be diverted for other purpose. Year wise expenditure shall be reported to the Ministry and its Regional Office located at Bhopal.	Adequate fund provision is already earmarked for environmental protection measures and will not be diverted to other purpose. The year wise expenditure is being submitted to concern authorities as per guidelines
xiv.	The project authorities shall inform to the Regional Office located at Bhopal regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development.	Financial closure plan not applicable as it is an operational mines.
xv.	The Regional Office of this Ministry located at Bhopal shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data/information/ monitoring reports.	All cooperation is being extended to regulatory authorities.
xvi.	A copy of clearance letter will be marked to concerned Panchayat / local NGO, if any, from whom suggestion / representation has been received while processing the proposal.	We have forwarded the copy of clearance letter to Panchayat /local NGO in our area. The copy of same has already been submitted to your good office.
xvii.	State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Collector's office/Tehsildar's office for 30 days.	The copy has been displayed by CECB in Surguja Collectorate.
xviii.	The project authorities should advertise at least in two local newspapers widely circulated, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the clearance letter informing that the project has been accorded environmental clearance and a copy of the clearance letter is available with the State Pollution Control Board and also at web site of the Ministry of Environment and Forests at <a href="http://envfor.nic">http://envfor.nic</a> and a copy of the same shall be forwarded to the Regional Office of this Ministry located Bhopal.	The information regarding environment clearance has been published in two local new papers Hari Bhumi & Ambika Vani. The copy of same has been already submitted to your good office.
