

HIL/RP/ENV/2026-27/03

27th May 2026

To,
The Director - IA Division / Member Secretary - EAC (Industry - I),
Ministry of Environment, Forest & Climate Change,
Indira Paryawaran Bhawan, Jor Bagh Road,
Aliganj, New Delhi - 110 003

Subject: Submission of half Yearly Compliance report of Environment Clearance for the period of October'25 to March'26

Ref.: Environment Clearance identification no EC24A1007GJ5692307N dated 19th November 2024.

Dear Sir,

This has reference to the above subject, we are submitting herewith half yearly Environment Clearance (EC) compliance status for the period of **October'25 to March'26** of the EC granted for Proposed Hindalco E-waste & Secondary Copper Recycling Project with Production Capacity of 288000TPA Copper Anode, 240000 TPA Copper Cathode, 40000 TPA metal (Ni, Zn, Pb/Sn, Te, Se, Bi) & metal compounds, 189TPA Precious Metals (including 23TPA Gold, 118TPA Silver and 48TPA PGM/20TPA Platinum & 4 TPA Palladium), E-waste pre-processing facility (789000 TPA) & Insulated Copper Wire processing facility (130000 TPA) located at Payal Industrial Park (PIP), Vill: Pakhajan, Teh: Vagra, Dist: Bharuch, Gujarat dated 19th November 2024.

This is for your kind information and records please.

Thanking You,
Yours Faithfully

For Hindalco Industries Limited
(Unit: E- Waste & Secondary Copper Recycling Project)

Dr. Sanjay Kumar
(Vice President,
Environment Head)

Cc: The **Regional Office, Gandhinagar**, Ministry of Environment, Forest and Climate Change, Karmayogi Bhawan Block – 3, F-2 Wing, 5th Floor, Near CH-3 Circle, Sector – 10A, Gandhinagar

E-mail: iro.gandhingr-mefcc@gov.in

Hindalco Industries Limited

Unit Location: Survey Number- 686P -689P, 691P - 693P, 695-705, 708- 719P, 720P, 721P, 725P, 726P-730P, 731P, 737, 738P, 739P, 740P, 741, AND 743P, Near Payal Industrial Park (PIP),

13	Oxygen	Tons per Annum (TPA)	N/A	132990	0	
Conditions						

Specific Conditions

Sr.No.	Condition Type	Condition Details
1	Statutory compliance	This Environmental clearance is granted subject to final outcome of Honble Supreme Court of India, Honble High Court, Honble NGT and any other Court of Law, if any, as may be applicable to this project.
PPs Submission: Being Complied Noted There is no appeal filed in any Court of Law.		Date: 06/05/2026
2	Statutory compliance	The project proponent shall comply with all the environmental protection measures and safeguards proposed in the documents submitted to the Ministry. All the recommendations made in the EIA/EMP in respect of environmental management, and risk mitigation measures relating to the project shall be implemented.
PPs Submission: Being Complied All the recommendations made in the EIA/EMP is being under implementation. First phase of the project is under construction.		Date: 06/05/2026
3	Statutory compliance	The project proponent shall utilize modern technologies for capturing carbon emission and shall also develop adequate carbon sink/ carbon sequestration resources with an aim to meet the carbon neutrality mission in a time bound manner. The implementation report shall be submitted to the IRO, MoEFCC in this regard.
PPs Submission: Agreed to Comply Latest world best technology has been adopted. A comprehensive study has been conducted before construction of plant. We have already planted approx. 8500 saplings (3.4 ha.) and greenbelt development is being continued to achieve carbon neutrality.		Date: 06/05/2026
4	Human Health Environment	Nadarkha Village is located at a distance of 1.2 km in West direction along with other sensitive areas within the study area of the project site. Proponent shall take appropriate environmental safeguard measures to minimise the impact on the habitation of the locals. The project proponent needs to strengthen green belt all around the plant area to reduce the dust pollution. The PP shall also include some of these locations in its environmental monitoring programme.
PPs Submission: Being Complied Nadarkha Village along with other sensitive areas within the study area, had been considered in the environmental management plan. Appropriate environmental safeguard measures are being implemented, such as installation of 7-stage air pollution control devices with adequate stack height to minimize impacts on local habitation. The project has been designed to achieve Zero Liquid discharge and a greenbelt covering 24.98 hectares inside the plant premises will be developed to further reduce environmental impact. Sensitive locations, including Nadarkha Village, have been incorporated into the environmental monitoring programme during the construction phase. Environmental monitoring is attached as Annexure		Date: 06/05/2026
5	Statutory compliance	There is a pond adjacent to the project boundary in North direction, Canal at about 60 m from the project boundary in West direction, Seasonal Nallah flowing adjacent to the project boundary in the west direction, another canal at 150 m from the project boundary in North direction along with other water bodies are present within the study area of the project site. A robust and full proof Drainage Conservation scheme to protect the natural drainage and its flow parameters; along with Soil conservation scheme and multiple Erosion control measures shall be implemented.

<p>PPs Submission: Agreed to Comply A robust Drainage Conservation Scheme has been prepared and is being implemented, along with soil conservation scheme and multiple erosion control measures. Construction of rainwater harvesting pond and stormwater drains is in progress as part of the drainage and soil conservation.</p>		<p>Date: 06/05/2026</p>
6	Statutory compliance	Water required for the proposed project will be 7500 m3/day, which will be obtained from the Payal Industrial Park sourcing from groundwater / surface water. PP shall obtain necessary permission from the Competent Authority in this regard.
<p>PPs Submission: Agreed to Comply Necessary permission is under approval from the GIDC.</p>		<p>Date: 26/05/2026</p>
7	GREENBELT	Three tier Green Belt shall be developed in atleast 33 percent of the project area as committed, of adequate width and tree density shall not be less than 2500 per ha. Survival rate of green belt developed shall be monitored on periodic basis to ensure that damaged plants are replaced with new plants in the subsequent years. PP shall also develop greenbelt in the form of shelter belt comprising of total of 6 rows of 2x2 m plantation with tall trees and broad leaves with thick canopy along with windshield inside the plant premises to act as green barrier for air pollution and noise levels towards sensitive areas nearby project site. Compliance status in this regard, shall be submitted to concerned Regional Office of the MoEFCC.
<p>PPs Submission: Being Complied A green belt will be developed over an area of 24.98 hectares, which constitutes 33 percent of the total project area with tree density of 2500 per Ha. Currently 1st phase greenbelt development (3.4 Ha area, 8500 saplings has been planted.)</p>		<p>Date: 25/05/2026</p>
8	GREENBELT	The PP shall undertake plantation, in compliance to MoEFCC OM dated 24.07.2024, in the earmarked 33 percent greenbelt area as a part of tree plantation campaign 'Ek Ped Maa Ke Naam' Campaign and the details of the same shall be uploaded on MeriLiFE portal at (https://merilife.nic.in)
<p>PPs Submission: Being Complied A green belt will be developed over an area of 24.98 hectares, which constitutes 33 percent of the total project area under 'Ek Ped Maa Ke Naam' Campaign and details will be uploaded on MeriLiFE portal. Currently 1st phase greenbelt development (3.4 Ha area, 8500 saplings has been planted.)</p>		<p>Date: 25/05/2026</p>
9	Corporate Environmental Responsibility	All the commitments made towards socio-economic development of the nearby villages shall be satisfactorily implemented. The action plan based on the social impact assessment study of the project as per the EMP in accordance to the Ministrys OM dated 30.09.2020 amounting to Rs. 107.25 Crores shall be strictly implemented and progress shall be submitted to the Regional Office of MoEFCC.
<p>PPs Submission: Being Complied Identified activities in 1st year have been completed as mentioned below: 1. School bag distributed at 6 Government Primary school of Pakhajan, Nandida, Pipaliya, Nandarkha, Akhod, Janiyadra villages and 552 students covered. Also, Math and Science Fair conducted 2. General Health Checkup done, Eye check-up camp, Awareness for road safety and de-addiction, Award/recognition is being, distribution of T-shirts, water bottles. 3. Fully Auto Biochemistry Analyzer provided to Govt. CHC and Mobile Health Unit (MHU) Agency Finalized 4. Solar streetlights to be installed for 33 villages in study area.</p>		<p>Date: 26/05/2026</p>
10	Corporate Environmental Responsibility	The project proponent shall undertake village adoption programme and prepare and implement the action plan to develop them into a

		model village.
PPs Submission: Being Complied Identified activities in 1st year have been started in the following six villages Pakhajan, Nandida, Pipaliya, Nandarkha, Akhod, Janiyadra.		Date: 25/05/2026
11	Statutory compliance	The recommendations of the approved Site-Specific Wildlife Management Plan shall be implemented in consultation with the State Forest Department. The implementation report shall be furnished along with the six-monthly compliance report to the concerned Regional Office of the MoEFCC.
PPs Submission: Being Complied In accordance with the approved Wildlife Management Plan, Total Payment 104.96 Lacs has been done against 2.62 Cr.		Date: 25/05/2026
12	AIR QUALITY MONITORING AND PRESERVATION	PP shall undertake air quality modelling with actual emissions, and submit the details in half-yearly compliance reports to concerned IRO MoEFCC, once the plant becomes operational.
PPs Submission: Agreed to Comply Air quality modelling will be carried out by the competent agency during the operation of the plant.		Date: 25/05/2026
13	WASTE MANAGEMENT	Considering the environmental sensitivity of the project due to involvement of e-waste and hazardous waste primarily, following conditions shall be strictly implemented: (a) The PP must adhere to all provisions of the Hazardous Waste Rules 2016 and the E-Waste Rules 2022 and their amendments issued time to time, including registration on EPR portal. This shall also include proper documentation and reporting under the rules. Any additional measures beyond the rules shall be in conformity to these rules in consultation with the CPCB/ SPCB.
PPs Submission: Agreed to Comply We are adhering to all provisions of the Hazardous Waste Rules 2016 and the E-Waste Rules 2022, and their amendments issued time to time, as applicable during the construction phase w.r.t development of storage facility. Covered sheds with impervious lined structure have been considered and are currently under construction. EPR application shall be done after the grant of CCA from GPCB.		Date: 25/05/2026
14	WASTE MANAGEMENT	(b) PP shall ensure that the import of waste, including e-waste, is strictly in compliance with the provisions of the Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 (as amended) and the E-Waste (Management) Rules, 2022 (as amended).
PPs Submission: Agreed to Comply The import of waste, including e-waste shall be done as per the applicable rule.		Date: 25/05/2026
15	WASTE MANAGEMENT	(c) The project proponent must ensure that provisions of Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 (as amended) and the E-Waste (Management) Rules, 2022 (as amended) are complied w.r.t. storage, handling, pre-processing/ processing, packaging, transport, recycling, and disposal of hazardous materials and waste, including e-waste.
PPs Submission: Being Complied We have finalized layout and location for Hazardous waste storage area, including E-waste (PCB) storage area. Construction is under process for the same. The provisions of Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 (as amended) and the E-Waste		Date: 25/05/2026

(Management) Rules, 2022 (as amended) is being complied w.r.t. storage, handling, pre-processing/ processing, packaging, transport, recycling, and disposal of hazardous materials and waste, including E-waste.		
16	WASTE MANAGEMENT	(d) PP shall adopt BAT/ BEP w.r.t. management hazardous and e-waste, in line with the extant regulations and CPCB/ SPCB Guidelines.
PPs Submission: Agreed to Comply We will adopt BAT/ BEP and follow CPCB/ SPCB Guidelines.		Date: 25/05/2026
17	WASTE MANAGEMENT	(e) Disposal of By-products: (1) Gaseous Waste: Filtration systems must be installed for the treatment of gaseous emissions. Collected dust should be properly disposed of, following relevant environmental guidelines. (2) Liquid Waste: Effluents must be treated on-site before discharge, and sludges should be recycled wherever feasible. (3) Solid Waste: All non-recyclable solid waste must be disposed of responsibly, ensuring compliance with hazardous waste regulations.
PPs Submission: Agreed to Comply 1. Gaseous waste: 7-stage air pollution control devices which includes Post combustion chamber with SNCR, Compact Quencher, Venturi Scrubber, Droplet separator, Packed Gas Cooling Tower (PGCT), injection of Activated Carbon and Hydrated lime and Bag Filter and other bag filters have been considered and PGCT is currently under construction. During operation, collected dust shall be recycled back in the system and/or disposed of as per the Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016. 2. Liquid Waste: The project has been designed to implement Zero Liquid discharge. ETP will be installed, currently construction is going on. ETP is followed by RO and MVR for ZLD. During operation, sludges shall be recycled back in the system and/or disposed of as per the Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016. 3. Solid Waste: All non-recyclable solid waste will be disposed of as per the Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016.		Date: 25/05/2026
18	WASTE MANAGEMENT	(f) Any waste deemed technically or economically un-processable must be landfilled in a manner that ensures environmentally sound final disposal, minimizing environmental impact.
PPs Submission: Agreed to Comply Authorised vendors have been identified and MoU has been signed for waste.		Date: 25/05/2026
19	WATER QUALITY MONITORING AND PRESERVATION	(g) PP should implement water conservation measures and ensure wastewater from the recycling process is treated to remove pollutants before discharge. Specific water consumption levels should be documented and minimized.
PPs Submission: Being Complied The project has been designed to implement Zero Liquid discharge (ZLD). ETP is being constructed and will be installed followed by RO and MVR for ZLD. Sewage Treatment Plant has been ordered and will be installed to treat domestic effluent. Rainwater harvesting pond is under construction. Specific water consumption levels will be documented and minimized during operation.		Date: 25/05/2026
20	Statutory compliance	(h) PP must develop and implement comprehensive emergency response plan to handle spills, leaks, and other potential emergencies that may occur during the operation of the plant and handling of hazardous and e-waste.
PPs Submission: Being Complied The unit has developed an emergency response plan, which is being implemented during		Date: 26/05/2026

construction and will also be implemented during operation.		
21	AIR QUALITY MONITORING AND PRESERVATION	(i) PP must regularly monitor emissions and document water consumption and CO2 emissions. This data should be reported to the appropriate authorities.
PPs Submission: Being Complied During construction, ambient air quality monitoring and fugitive monitoring at site have been carried out through MoEFCC recognized and NABL accredited laboratory. Environmental monitoring reports is attached as Annexure for reference. We will regularly monitor emissions and document water consumption and CO2 emissions during plant operation.		Date: 26/05/2026
22	Risk Mitigation and Disaster Management	(j) As the site is located in a cyclone-prone area, PP should prepare a detailed risk management plan addressing cyclone risks, and this must be updated regularly. The same shall be implemented.
PPs Submission: Being Complied Risk management plan addressing cyclone risks has been covered under onsite emergency plan and is being implemented during construction.		Date: 26/05/2026
23	WASTE MANAGEMENT	(k) PP must develop and implement a circular economy strategy for all by-products and waste, with the aim of reducing, reusing, and recycling as much as possible. This should go beyond the traditional linear economy model of waste disposal.
PPs Submission: Being Complied We have identified the competent recyclers for the management of all by-products and waste with the aim of reducing, reusing, and recycling as much as possible, in line with a circular economy approach. For the waste disposal, we have comprehensive action plan as per CSIR-CBRI, Roorkee study report.		Date: 26/05/2026
24	Statutory compliance	(l) PP shall conduct comprehensive Soil Health Monitoring within a 10 km radius of the project site. This monitoring should be carried out at least twice a year (pre-monsoon and post-monsoon) to assess any potential impacts of the project activities on soil quality. The results of the soil health assessment must be submitted to the State Pollution Control Board (SPCB) and included in the Environmental Compliance Reports. Corrective measures must be undertaken if any degradation in soil quality is detected, ensuring that the project activities do not adversely affect the agricultural and ecological balance in the surrounding area.
PPs Submission: Being Complied Pre-monsoon comprehensive Soil Health Monitoring within a 10 km radius of the project site has been carried out through MoEFCC recognized and NABL accredited laboratory during this compliance period. Monitoring report attached as Annexure for reference.		Date: 26/05/2026
25	WASTE MANAGEMENT	(m) PP shall conduct a Mass Balance and Hazardous Waste Characterization study every six months. This study should account for the generation, handling, storage, and disposal of hazardous waste as per Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016. Based on the findings, the Risk Assessment and Management Plan must be revised and updated to address any new or emerging risks.
PPs Submission: Agreed to Comply The unit will conduct a Mass Balance and Hazardous Waste Characterization study in every six months during operation.		Date: 26/05/2026
26	WASTE MANAGEMENT	(n) Post Project Monitoring Plan for periodic assessment

		(quantitative and qualitative) of hazardous waste and its management shall be strictly adhere by the project proponent.
PPs Submission: Agreed to Comply Periodic assessment (both quantitative and qualitative) of hazardous waste has been incorporated into post project monitoring plan. The qualitative assessment of hazardous waste will be carried out through MoEFCC recognized and NABL accredited laboratories.		Date: 26/05/2026
27	WASTE MANAGEMENT	(o) PP shall strive to reduce the hazardous wastes, to the extent possible, as per the global best practices.
PPs Submission: Agreed to Comply During the plant operations, we will strive to reduce the hazardous wastes, to the extent possible, as per the global best practices.		Date: 26/05/2026
28	Statutory compliance	(p) The comprehensive Recycling Action Plan proposed by the PP shall be implemented and reviewed from time to time in light of emergence of new technologies and stipulation of new regulatory guidelines. Necessary course corrections as and when required shall be done and the same shall be informed to MoEFCC through the IRO.
PPs Submission: Agreed to Comply Will comply during the operation, as the project is under construction phase.		Date: 26/05/2026
29	Statutory compliance	A Table indicating the source of each toxic element and the corresponding output stream must be included in the self-compliance report filed to RO MoEFCC half yearly.
PPs Submission: Agreed to Comply Will comply during the operation.		Date: 26/05/2026
30	Human Health Environment	Water and soil in the vicinity of the Plant must be tested for possible contamination from the plant operations, (e.g. bromides, chlorides, mercury, copper etc.), and reported to RO MoEFCC.
PPs Submission: Being Complied Ground water and soil monitoring has been carried out in the vicinity of the plant, during the construction phase through MoEFCC recognized and NABL accredited laboratory. The monitoring covered potential contaminants such as bromides, chlorides, mercury, copper, and other relevant parameters. Monitoring reports is attached as Annexure for reference.		Date: 26/05/2026
31	Statutory compliance	PP shall explore imparting capacity building to farmers in the study area in good agricultural practices allocation of through a separate fund for the purpose.
PPs Submission: Agreed to Comply We will provide training and awareness programs for farmers in the study area under Corporate Environmental Responsibility (CER). The focus will be on organic farming, water and soil conservation, and crop rotation practices suited to local soil conditions. A detailed plan has been prepared, and its implementation is currently in progress.		Date: 26/05/2026
General Conditions		
Sr.No.	Condition Type	Condition Details
1	WASTE MANAGEMENT	Kitchen waste shall be composted or converted to biogas for further use.

PPs Submission: Agreed to Comply Noted		Date: 26/05/2026
2	ENERGY PRESERVATION MEASURES	Provide LED lights in their offices and residential areas.
PPs Submission: Being Complied We have provided LED lights in all the project offices		Date: 26/05/2026
3	Statutory compliance	The Environment Clearance (EC) granted to the project/ activity is strictly under the provisions of the EIA Notification, 2006 and its amendments issued from time to time. It does not tantamount/ construe to approvals/ consent/ permissions etc., required to be obtained or standards/conditions to be followed under any other Acts/Rules/Subordinate legislations, etc., as may be applicable to the project.
PPs Submission: Agreed to Comply Noted		Date: 26/05/2026
4	Statutory compliance	This Environmental clearance is granted subject to final outcome of Honble Supreme Court of India, Honble High Court, Honble NGT and any other Court of Law, if any, as may be applicable to this project.
PPs Submission: Agreed to Comply Noted		Date: 26/05/2026
5	AIR QUALITY MONITORING AND PRESERVATION	The project proponent shall install 24x7 continuous emission monitoring system at process stacks to monitor stack emission as well as 06 Nos. Continuous Ambient Air Quality Station (CAAQMS) for monitoring AAQ parameters with respect to standards prescribed in Environment (Protection) Rules 1986 as amended from time to time. The CEMS and CAAQMS shall be connected to SPCB and CPCB online servers and calibrate these systems from time to time according to equipment supplier specification through labs recognized under Environment (Protection) Act, 1986 or NABL accredited laboratories.
PPs Submission: Being Complied We have considered installation of 24x7 continuous emission monitoring system (CEMS) at process stacks and Continuous Ambient Air Quality Station (CAAQMS) for monitoring AAQ parameters. Order for 4 numbers of CAAQMS procured and installation is in progress. For CEMS order has been finalized. These systems will be installed during the commissioning phase of the project and will be connected to the GPCB and CPCB servers for real-time data transmission. Calibration will be carried out periodically as per the CPCB guidelines through laboratories recognized under the Environment (Protection) Act, 1986 or NABL-accredited labs.		Date: 26/05/2026
6	AIR QUALITY MONITORING AND PRESERVATION	The project proponent shall carryout Continuous Ambient Air Quality monitoring for common/criterion parameters relevant to the main pollutants released (e.g. PM10 and PM2.5 in reference to PM emission, and SO2 and NOx in reference to SO2 and NOx emissions) within and outside the plant area (at least at four locations one within and three outside the plant area at an angle of 120 each), covering upwind and downwind directions.
PPs Submission: Being Complied		Date:

Ambient air monitoring is being carried out weekly twice at identified locations. For Continuous Ambient Air Quality monitoring we have procured 4 numbers of CAAQMS stations for PM10 and PM2.5 in reference to PM emission, and SO2 and NOx in reference to SO2 and NOx emissions in accordance with CPCB guidelines. Report attached as Annexure.		26/05/2026
7	AIR QUALITY MONITORING AND PRESERVATION	The project proponent shall monitor fugitive emissions in the plant premises at least once in every quarter through laboratories recognized under Environment (Protection) Act, 1986 or NABL accredited laboratories.
PPs Submission: Being Complied Fugitive emissions during construction phase have been monitored quarterly through MoEFCC recognized and NABL accredited laboratory. Fugitive emission monitoring report is attached as Annexure for reference.		Date: 26/05/2026
8	AIR QUALITY MONITORING AND PRESERVATION	Sampling facility at process stacks shall be provided as per CPCB guidelines for manual monitoring of emissions.
PPs Submission: Being Complied The project is currently under construction, and provisions for sampling facilities at process stacks, as per CPCB guidelines, is incorporated in the design to enable manual monitoring of emissions.		Date: 26/05/2026
9	WASTE MANAGEMENT	Oil Collection pits shall be provided in oil cellars to collect and reuse/recycle spilled oil.
PPs Submission: Agreed to Comply Noted and will comply with execution of construction activities.		Date: 26/05/2026
10	AIR QUALITY MONITORING AND PRESERVATION	Appropriate Air Pollution Control (APC) system shall be provided for all the dust generating points including fugitive dust from all vulnerable sources, so as to comply prescribed stack emission and fugitive emission standards.
PPs Submission: Agreed to Comply The unit will install the 7-stage air pollution control devices which includes Post combustion chamber with SNCR, Compact Quencher, Venturi Scrubber, Droplet separator, Packed Gas Cooling Tower, injection of Activated Carbon and Hydrated lime and Bag Filter. Additionally, adequate capacity of Bag filters will be installed at raw material handling, storage and transfer points to control fugitive dust emission.		Date: 26/05/2026
11	AIR QUALITY MONITORING AND PRESERVATION	The project proponent shall provide leakage detection and mechanized bag cleaning facilities for better maintenance of bags.
PPs Submission: Agreed to Comply We have considered DP gauge meter and automatic purging system for mechanized bag cleaning facilities for better maintenance of bags during project execution.		Date: 26/05/2026
12	AIR QUALITY MONITORING AND PRESERVATION	Sufficient number of mobile or stationery vacuum cleaners shall be provided to clean plant roads, shop floors, roofs, regularly.
PPs Submission: Agreed to Comply We have considered provision of a sufficient number of mobile and stationary vacuum cleaners to ensure regular cleaning of plant roads, shop floors, and roofs. This measure will help maintain cleanliness, minimize dust accumulation, and reduce fugitive emissions within the plant premises.		Date: 26/05/2026
13	AIR QUALITY	Ensure covered transportation and conveying of raw material to

	MONITORING AND PRESERVATION	prevent spillage and dust generation. The project proponent use leak proof trucks/dumpers carrying coal and other raw materials and cover them with tarpaulin.
PPs Submission: Being Complied During the construction phase, transportation of raw materials has been carried out using covered, leak-proof trucks/dumpers to prevent spillage and control dust generation. The same practice will be followed during the operation phase, ensuring compliance with environmental safeguards.		Date: 26/05/2026
14	AIR QUALITY MONITORING AND PRESERVATION	The project proponent shall provide primary and secondary fume extraction system at all heat treatment furnaces.
PPs Submission: Being Complied Primary and secondary fume extraction system have been designed and is under installation at anode furnace.		Date: 26/05/2026
15	AIR QUALITY MONITORING AND PRESERVATION	Wind shelter fence and chemical spraying shall be provided on the raw material stock piles.
PPs Submission: Being Complied Wind shelter is being provided on the raw material storage area.		Date: 26/05/2026
16	AIR QUALITY MONITORING AND PRESERVATION	Design the ventilation system for adequate air changes as per prevailing norms for all tunnels, motor houses, Oil Cellars
PPs Submission: Being Complied The ventilation system has been designed to ensure adequate air changes in accordance with the prevailing norms.		Date: 26/05/2026
17	AIR QUALITY MONITORING AND PRESERVATION	Pollution control system in the plant shall be provided as per the CREP Guidelines of CPCB.
PPs Submission: Being Complied The unit will install the 7-stage air pollution control devices. Additionally, adequate capacity of Bag filters will be installed at raw material handling, storage and transfer points to control fugitive dust emission. The project has been designed to implement Zero Liquid discharge. ETP is being constructed and will be installed followed by RO and MVR for ZLD. Sewage Treatment Plant will be installed to treat domestic effluent		Date: 26/05/2026
18	AIR QUALITY MONITORING AND PRESERVATION	The project proponent shall adopt the Clean Air practices like mechanical collectors, wet scrubbers, fabric filters (bag houses), electrostatic precipitators, combustion systems (thermal oxidizers), condensers, absorbers, adsorbers, and biological degradation. Controlling emissions related to transportation shall include emission controls on vehicles as well as use of cleaner fuels. Sufficient numbers of additional truck mounted Fog/Mist water cannons shall be procured and operated regularly inside the project premises and also in the surrounding villages to arrest suspended dust in the atmosphere.
PPs Submission: Agreed to Comply The unit will install the 7-stage air pollution control device which includes Post combustion chamber with SNCR, Compact Quencher, Venturi Scrubber, Droplet separator, Packed Gas Cooling Tower, Activated Carbon and injection of Hydrated lime and Bag Filter. Road sweeping machine and water cannons will be deployed.		Date: 26/05/2026

19	AIR QUALITY MONITORING AND PRESERVATION	Bag filters shall be cleaned regularly and efficiency of bag filter system shall be monitored at regular intervals.
PPs Submission: Agreed to Comply Bag filters will be cleaned regularly, and the efficiency of the bag filter system will be monitored at defined intervals during the operation phase.		Date: 26/05/2026
20	AIR QUALITY MONITORING AND PRESERVATION	Water Sprinklers/Water mist system shall be installed near raw material yards, operational units and other strategic locations to control fugitive emissions from the plant.
PPs Submission: Agreed to Comply Noted and will comply during commissioning phase, as the project is under construction phase.		Date: 26/05/2026
21	AIR QUALITY MONITORING AND PRESERVATION	The particulate matter emissions from the process stacks shall be less than 30 mg/Nm ³ and measures shall be undertaken as per the submitted action plan. Efficient Air monitoring equipment shall be installed.
PPs Submission: Agreed to Comply All the bag filters have been designed to ensure particulate matter emissions remain below 30 mg/Nm ³ . Efficient air monitoring equipment will be installed, including Continuous Emission Monitoring Systems (CEMS) at process stacks, to track emissions in real time.		Date: 26/05/2026
22	AIR QUALITY MONITORING AND PRESERVATION	Following additional arrangements to control fugitive dust shall be provided: a. Fog / Mist Sprinklers at all on bulk raw material storage area (at the transfer points) like Iron Ore, Coal and for Fly Ash and similar solid waste storage areas. b. Proper covered vehicle shall be used while transport of materials. c. Wheel washing mechanism shall be provided in entry and exit gates with complete recirculation system.
PPs Submission: Being Complied a. During construction, water sprinklers has been provided at raw material storage area. b. Proper covered vehicle is being used while transport of materials. c. Wheel washing mechanism will be provided with complete recirculation system.		Date: 26/05/2026
23	WATER QUALITY MONITORING AND PRESERVATION	The project proponent shall install 24x7 continuous effluent monitoring system with respect to standards prescribed in Environment (Protection) Rules 1986 as amended from time to time and connected to SPCB and CPCB online servers and calibrate these system from time to time according to equipment supplier specification through labs recognized under Environment (Protection) Act, 1986 or NABL accredited laboratories.
PPs Submission: Being Complied Continuous effluent monitoring system will be installed and connected to server of GPCB and CPCB for real time data.		Date: 26/05/2026
24	WATER QUALITY MONITORING AND PRESERVATION	The project proponent shall monitor regularly ground water quality at least twice a year (pre- and post-monsoon) at sufficient numbers of piezometers/sampling wells in the plant and adjacent areas through labs recognized under Environment (Protection) Act, 1986 and NABL accredited laboratories.
PPs Submission: Being Complied Ground water quality for post-monsoon season in the nearby villages has been monitored through labs recognized under Environment (Protection) Act, 1986 NABL accredited laboratory. No ground		Date: 26/05/2026

water extraction at site. Ground water monitoring report has been attached as Annexure for reference.		
25	WATER QUALITY MONITORING AND PRESERVATION	Garland drains and collection pits shall be provided for each stock pile to arrest the run-off in the event of heavy rains and to check the water pollution due to surface run off.
PPs Submission: Being Complied Noted and will comply with execution of construction activities.		Date: 26/05/2026
26	WATER QUALITY MONITORING AND PRESERVATION	Water meters shall be provided at the inlet to all unit processes in the steel plants.
PPs Submission: Being Complied Water meters have been considered for installation at the inlet to all unit processes unit of the E waste and secondary copper recycling unit in the plant during the operation phase. Approx 20 Water meters will be installed at the inlet of processes.		Date: 26/05/2026
27	WATER QUALITY MONITORING AND PRESERVATION	The project proponent shall make efforts to minimise water consumption in the steel plant complex by segregation of used water, practicing cascade use and by recycling treated water.
PPs Submission: Being Complied The project E waste and secondary copper recycling unit has been designed to implement Zero Liquid discharge. Treated water will we reuse in process/cooling. Sewage Treatment Plant will be installed for domestic effluent. Treated water will be reuse in gardening/Greenbelt.		Date: 26/05/2026
28	WATER QUALITY MONITORING AND PRESERVATION	The proposed project shall be designed as Zero Liquid Discharge Plant. ETP shall be installed and there shall be no discharge of effluent from the plant. Domestic effluent shall be treated in Sewage Treatment Plant. Suitable measures shall be adopted for sewage water handling to ensure no contamination of any kind of water body.
PPs Submission: Being Complied The project has been designed as a Zero Liquid Discharge (ZLD) plant. Construction of the Effluent Treatment Plant (ETP) is currently in progress to ensure that no industrial effluent is discharged outside the premises. For domestic effluent, a Sewage Treatment Plant (STP) will be installed. Treated water from the STP will be reused for gardening / greenbelt.		Date: 26/05/2026
29	WATER QUALITY MONITORING AND PRESERVATION	All stockyards shall have impervious flooring and shall be equipped with water spray system for dust suppression. Stock yards shall also have garland drains and catch pits to trap the run off material and shall be implemented as per the action plan submitted in EIA/EMP report.
PPs Submission: Being Complied All stockyards is being constructed with impervious flooring. Additionally, garland drains and catch pits will be provided to trap runoff material, in line with the action plan submitted in the EIA/EMP report.		Date: 26/05/2026
30	WATER QUALITY MONITORING AND PRESERVATION	Rain water harvesting shall be implemented to recharge/harvest water as per the action plan submitted in the EIA/EMP report.
PPs Submission: Being Complied Rainwater harvesting pond is currently under construction.		Date: 26/05/2026

31	Noise Monitoring & Prevention	The ambient noise levels should conform to the standards prescribed under E(P)A Rules, 1986 viz. 75 dB(A) during day time and 70 dB(A) during night time.
PPs Submission: Being Complied The ambient noise levels at the project site have been maintained within the limits prescribed under the Environment (Protection) Rules, 1986 i.e. 75 dB(A) during daytime and 70 dB(A) during nighttime. Monthly monitoring is carried out to ensure continued compliance.		Date: 26/05/2026
32	ENERGY PRESERVATION MEASURES	Provide solar power generation on roof tops of buildings, for solar light system for all common areas, street lights, parking around project area and maintain the same regularly
PPs Submission: Agreed to Comply We will be using RE power including GEB integration has been considered during the plant operation.		Date: 26/05/2026
33	WASTE MANAGEMENT	100 percent utilization of fly ash shall be ensured. All the fly ash shall be provided to cement and brick manufacturers for further utilization and Memorandum of Understanding in this regard shall be submitted to the Ministry's Regional Office.
PPs Submission: Agreed to Comply Not applicable		Date: 26/05/2026
34	WASTE MANAGEMENT	The Plastic Waste Management Rules 2016, inter-alia, mandated banning of identified Single Use Plastic (SUP) items with effect from 01/07/2022. In this regard, CPCB has issued a direction to all the State Pollution Control Boards (SPCBs)/Pollution Control Committees (PCCs) on 30/06/2022 to ensure the compliance of Notification published by Ministry on 12/08/2021. The technical guidelines issued by the CPCB in this regard is available at https://cpcb.nic.in/technical-guidelines-3/ . All the project proponents are hereby requested to sensitize and create awareness among people working within the Project area as well as its surrounding area on the ban of SUP in order to ensure the compliance of Notification published by this Ministry on 12/08/2021. A report, along with photographs, on the measures taken shall also be included in the six monthly compliance report being submitted by the project proponents.
PPs Submission: Being Complied We have incorporated the Single Use Plastic (SUP) ban clause in the project construction tender documents. Awareness sessions have been conducted for people working within the project area, photographs of these awareness programs are attached for reference.		Date: 26/05/2026
35	WASTE MANAGEMENT	A proper action plan must be implemented to dispose of the electronic waste generated in the industry.
PPs Submission: Agreed to Comply Noted and agreed to comply during operation.		Date: 26/05/2026
36	GREENBELT	The project proponent shall prepare GHG emissions inventory for the plant and shall submit the programme for reduction of the same including carbon sequestration by trees.
PPs Submission: Agreed to Comply Noted and agreed to comply during operation.		Date: 26/05/2026

37	GREENBELT	Project proponent shall submit a study report on Decarbonisation program, which would essentially consist of companys carbon emissions, carbon budgeting/ balancing, carbon sequestration activities and carbon capture, use and storage and offsetting strategies. Further, the report shall also contain time bound action plan to reduce its carbon intensity of its operations and supply chains, energy transition pathway from fossil fuels to Renewable energy etc. All these activities/ assessments should be measurable and monitor able with defined time frames.
PPs Submission: Agreed to Comply Noted and agreed to comply during operation.		Date: 26/05/2026
38	GREENBELT	Greening and Paving shall be implemented in the plant area to arrest soil erosion and dust pollution from exposed soil surface.
PPs Submission: Agreed to Comply Greening and Paving will be implemented		Date: 26/05/2026
39	Human Health Environment	Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.
PPs Submission: Being Complied Emergency preparedness plan which includes Disaster Management based on the Hazard identification and Risk Assessment (HIRA) is being implemented.		Date: 26/05/2026
40	Human Health Environment	The project proponent shall carry out heat stress analysis for the workmen who work in high temperature work zone and provide Personal Protection Equipment (PPE) as per the norms.
PPs Submission: Being Complied Personal Protective Equipment (PPEs) like Helmet, Goggles, Ear Plug, Dust Mask, Rubber Gloves etc has been provided to all the workmen at project site as per the norms of Factory Act. Photographs attached for reference		Date: 26/05/2026
41	Human Health Environment	Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP. Safe drinking water, medical health care, creche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.
PPs Submission: Being Complied There is no residential construction labour at the site. However, facilities such as toilets, drinking water, medical healthcare, etc. has been provided for all the construction labours at site.		Date: 26/05/2026
42	Human Health Environment	Occupational health surveillance of the workers shall be done on a regular basis and records maintained.
PPs Submission: Being Complied Occupational health surveillance is being done on a regular basis and records maintained as per the Factories Act. Periodic Medical Examination Details are attached as Annexure		Date: 27/05/2026
43	Corporate Environmental Responsibility	The project proponent shall comply with the provisions contained in this Ministrys OM vide F.No. 22-65/2017-IA.III dated 30/09/2020. As part of Corporate Environment Responsibility (CER) activity, company shall adopt nearby villages based on the socio-economic survey and undertake community developmental activities in

		consultation with the village Panchayat and the District Administration as committed.	
<p>PPs Submission: Being Complied Identified activities in 1st year have been completed as mentioned School bag distributed at adopted 6 Government Primary school of Pakhajan, Nandida, Pipaliya, Nandarkha, Akhod, Janiyadra villages and 552 students covered. Also, Math and Science Fair conducted, General Health Checkup done, Eye check-up camp, Awareness for road safety and de-addiction, Award/recognition is being, distribution of T-shirts, water bottles, Fully Auto Biochemistry Analyzer provided to Govt. CHC and Mobile Health Unit (MHU) Agency Finalized and Solar streetlights to be installed for 33 villages in study area.</p>			Date: 26/05/2026
44	Statutory compliance	The company shall have a well laid down environmental policy duly approve by the Board of Directors. The environmental policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements /deviation/violation of the environmental / forest / wildlife norms / conditions. The company shall have defined system of reporting infringements / deviation / violation of the environmental / forest / wildlife norms / conditions and / or shareholders / stake holders. The copy of the board resolution in this regard shall be submitted to the MoEFCC as a part of six-monthly report.	
<p>PPs Submission: Being Complied Hindalco Industries limited has a well laid Environment policy. Copy of the Policy is attached</p>			Date: 26/05/2026
45	Statutory compliance	A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly to the head of the organization.	
<p>PPs Submission: Being Complied Hindalco Industries limited has a well laid Environment policy. Copy of the Policy is attached</p>			Date: 26/05/2026
46	AIR QUALITY MONITORING AND PRESERVATION	Performance test shall be conducted on all pollution control systems every year and report shall be submitted to Integrated Regional Office of the MoEFCC.	
<p>PPs Submission: Agreed to Comply Noted and agreed to comply during operation.</p>			Date: 26/05/2026
47	MISCELLANEOUS	The project proponent shall make public the environmental clearance granted for their project along with the environmental conditions and safeguards at their cost by prominently advertising it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days and in addition this shall also be displayed in the project proponents website permanently.	
<p>PPs Submission: Complied Advertisement regarding grant of EC has been published in Times of India and Gujarat Samachar dated 25th November 2024. Copy of the advertisement is attached</p>			Date: 26/05/2026
48	MISCELLANEOUS	The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.	

<p>PPs Submission: Complied The copies of the environmental clearance has been submitted to the following government office vide letter no. HIL/RP/ENV/2024-25/19 dated 25th Nov 2024: i) The District Collector office, Bharuch ii) Regional office GPCB, Bharuch iii) District Development office, Bharuch iv) District Industrial Center v) Taluka Development officer, Vagra The EC copies has been submitted to village panchayat office of all the 33 villages covered in the study area. Letters of Government office and village Panchayat is attached.</p>		<p>Date: 26/05/2026</p>
49	MISCELLANEOUS	The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.
<p>PPs Submission: Being Complied The status of compliance of the stipulated environmental clearance conditions has been uploaded on the website and will be updated on a half-yearly basis, as required. Website photo is attached annexure</p>		<p>Date: 26/05/2026</p>
50	MISCELLANEOUS	The project proponent shall monitor the criteria pollutants level namely; PM10, SO2, NOx (ambient levels as well as stack emissions) or critical sectoral parameters, indicated for the projects and display the same at a convenient location for disclosure to the public and put on the website of the company.
<p>PPs Submission: Being Complied During construction, ambient air quality monitoring and fugitive monitoring at site have been carried out through MoEFCC recognized and NABL accredited laboratory. environmental monitoring reports is attached as Annexure for reference. Digital display board will be installed at main gate and will EC compliance report along with monitoring results will be put on companys website.</p>		<p>Date: 26/05/2026</p>
51	MISCELLANEOUS	Action plan for developing connecting and internal road in terms of MSA as per IRC guidelines shall be implemented
<p>PPs Submission: Being Complied IRC guidelines are being implemented for connecting and internal road</p>		<p>Date: 26/05/2026</p>
52	MISCELLANEOUS	The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the ministry of Environment, Forest and Climate Change at environment clearance portal.
<p>PPs Submission: Being Complied The six-monthly report is being submitted to MoEFCC PARIVESH portal. A screenshot of the last EC compliance report submitted at PARIVESH Portal is attached for reference.</p>		<p>Date: 26/05/2026</p>
53	MISCELLANEOUS	The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put on the website of the company.
<p>PPs Submission: Agreed to Comply Environmental Statement (Form-V) will be submitted to GPCB after the operation of plant</p>		<p>Date: 26/05/2026</p>
54	MISCELLANEOUS	The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project.

<p>PPs Submission: Complied The project has reached financial closure.</p>		<p>Date: 27/05/2026</p>
55	MISCELLANEOUS	The project proponent shall abide by all the commitments and recommendations made in the EIA/EMP report, commitment made during Public Hearing and also that during their presentation to the Expert Appraisal Committee.
<p>PPs Submission: Being Complied All the commitments and recommendations made in the EIA/EMP report, commitment made during Public Hearing and during presentation are being duly implemented in alignment with the construction activities.</p>		<p>Date: 27/05/2026</p>
56	MISCELLANEOUS	The recommendations of the approved Site-Specific Wildlife Management Plan (in case of involvement of Schedule-I species) shall be implemented in consultation with the State Forest Department. The implementation report shall be furnished along with the six-monthly compliance report to the concerned Regional Office of the MoEFCC.
<p>PPs Submission: Being Complied In accordance with the approved Wildlife Management Plan, Total Payment 104.96 Lacs (52.46 Lacs for 1st Year and 52.46 Lakhs for 2nd Year) has been deposited into the account of the Forest Department, Gujarat, for the implementation of all activities of WLCP</p>		<p>Date: 27/05/2026</p>
57	MISCELLANEOUS	The PP shall put all the environment related expenditure, expenditure related to Action Plan on the PH issues, and other commitments made in the EIA/EMP Report etc. in the company web site for the information to public/public domain. The PP shall also put the information on the left over funds allocated to EMP and PH as committed in the earlier ECs and shall be carried out and spent in next three years, in the company web site for the information to public/public domain.
<p>PPs Submission: Being Complied All the PH issue we have addressed in the Corporate Environment Responsibility. The project is under construction and funds allocated to EMP will be carried out in phases.</p>		<p>Date: 27/05/2026</p>
58	MISCELLANEOUS	No further expansion or modifications in the plant shall be carried out without prior approval of the Ministry of Environment, Forests and Climate Change (MoEFCC).
<p>PPs Submission: Agreed to Comply Noted</p>		<p>Date: 27/05/2026</p>
59	MISCELLANEOUS	Concealing factual data or submission of false/fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.
<p>PPs Submission: Agreed to Comply Noted</p>		<p>Date: 27/05/2026</p>
60	MISCELLANEOUS	The Ministry may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.
<p>PPs Submission: Agreed to Comply Noted</p>		<p>Date: 27/05/2026</p>

61	MISCELLANEOUS	The Ministry reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.
PPs Submission: Agreed to Comply Noted		Date: 27/05/2026
62	MISCELLANEOUS	The Regional Office of this Ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information/monitoring reports.
PPs Submission: Agreed to Comply Noted		Date: 27/05/2026
63	MISCELLANEOUS	Any appeal against this EC shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.
PPs Submission: Agreed to Comply Noted There is no appeal filed		Date: 27/05/2026
64	Noise Monitoring & Prevention	Noise pollution shall be monitored as per the prescribed Noise Pollution (Regulation and Control) Rules, 2000 and amendments thereof, and report in this regard shall be submitted to Regional Officer of the Ministry as a part of six-monthly compliance report.
PPs Submission: Being Complied During construction, noise monitoring has been carried out at site through MoEFCC recognized and NABL accredited laboratory. Noise monitoring reports for the period of October 25 to March 2026 is attached as Annexure for reference.		Date: 26/05/2026
Visit Remarks		
Last Site Visit Report Date:		N/A
Additional Remarks:		
<p>Note: This acknowledgement is as per the details submitted by project proponent. In no way is this document to be considered as conclusion on any action on the compliance of the project. This is strictly for the project proponent's reference purpose.</p>
