ANNEXURE - III

REGIONAL OFFICE
CHHATTISGARH ENVIRONMENT CONSERVATION BOARD
Bank Colony, Behind E.T.I., Nawapara, Ambikapur (C.G.) Fax/Phone 07774-231936

No. 826/RO/TS/CECB/2017

To:
M/s Hindalco Industries Limited,
(Tatijharia Bauxite Mine)
Village- Tatijharia & Betapangi,
Tehsil - Samri,
District - Balrampur-Ramanujgarh (C.G.)

Subject: Renewal of consent of the board under Section 21 of the Air (Prevention & Control of Pollution) Act, 1981.

Ref: Your online application no. 486867 dated 21/07/2017 and subsequent correspondence ending dated 04/08/2017.

With reference to your above, application consent and license are hereby renewed for a period from 20/05/2018 to 30/11/2022 with the terms and conditions incorporated in the consent issued by Board Office letter No. 6999/TS/CECB/2007, Raipur, dated 24/12/2007, subsequent renewal of consent issued by Board and additional condition mentioned below:

<table>
<thead>
<tr>
<th>NAME</th>
<th>PRODUCTION CAPACITY</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mining of Bauxite Ore</td>
<td>4.0 Lakhs T/Annum (Four Lakhs Tonnes Per Annum)</td>
</tr>
</tbody>
</table>

Additional Conditions:
1. The industry shall operate & maintain the air pollution control system effectively & regularly. Effective steps shall be taken to control fugitive dust emission. Fixed type automatic water sprinkling system shall be installed at haul roads/other roads, ore stock yard etc. Dust suppression system (water sprinkling arrangement) shall be made more effective to ensure ambient air quality within prescribed limit in and around the mine area all the time.
2. Regular monitoring for the measurement of air pollutants level in ambient shall be carried out. Industry shall submit air quality monitoring reports to the Board regularly.
3. Industry shall ensure safe and scientific arrangement for disposal of all solid wastes. Excavated area shall be reclaimed scientifically.
4. All internal roads shall be made pucca & shall be maintained properly. Dust, muck & sludge generated due to transportation on the road shall be cleaned and disposed off properly. Industry shall maintain good house keeping within mine lease area. Industry shall ensure the transportation of ore in duly covered vehicles.
5. Industry shall use fly ash brick, fly ash blocks or fly ash based products in their construction/repairing activities.
6. Wide green belt of broad leaf local species shall be developed along the mine lease area. As far as possible maximum area of open spaces shall be utilized for plantation purposes.
7. Industry shall submit Environment statement to the Board as per provision of Environmental (Protection) Amendment Rule, 1983 for the previous year ending 31st March on or before 30th September every year.
8. Chhattisgarh Environment Conservation Board reserves the rights to revoke the Consent at any time for any violation/non-compliance.

Please acknowledge the receipt of this letter.

For and on behalf of

CHHATTISGARH ENVIRONMENT CONSERVATION BOARD

Hindalco Industries Ltd.
Samri Mines Division
Distt. Balrampur (C.G.)

Date: 1/3/17
Received by:

Regional Officer,
Chhattisgarh Environment Conservation Board,
Ambikapur

Agent of Mines
Samri Mines Division
To,
M/s Hindalco Industries Limited,
(Tatijharia Bauxite Mine)
Village- Tatijharia & Betapani,
Tehsil - Samri,
District - Balrampur-Ramanujganj (C.G.)

Subject: Renewal of consent of the board under Section 25/26 of the Water (Prevention &
Control of Pollution) Act, 1974.

Ref: Your online application no. 466667 dated 21/07/2017 and subsequent correspondence ending dated 04/08/2017.

With reference to your above, application consent and license are hereby renewed for a period from 20/05/2018 to 30/11/2022 with the terms and conditions incorporated in the consent issued by Board Office letter no. 6864/TS/CECB/2007, Raipur, dated 24/12/2007. Subsequent renewal of consent issued by Board and additional condition mentioned below:

<table>
<thead>
<tr>
<th>NAME</th>
<th>PRODUCTION CAPACITY</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mining of Bauxite Ore</td>
<td>4.0 Lakhs T./Annunm</td>
</tr>
</tbody>
</table>

(Four Lakhs Tonnes Per Annum)

Additional Conditions:
1. Industry shall operate and maintain the effluent treatment system effectively and regularly. Industry shall ensure treated effluent within the standards prescribed by Board published in Gazette Notification dated 25.03.1988. Treated effluent shall be used for dust suppression, domestic use, irrigation, other useful purposes etc. Industry shall not discharge any treated/untreated effluent into the river or any other surface water bodies. No effluent shall be discharged outside of the mine premises in any circumstances; hence zero discharge condition shall be maintained all the time; failing which, this renewal of consent may be cancelled.
2. Industry shall ensure safe and scientific arrangement for disposal of all solid wastes. Excavated area shall be reclaimed scientifically.
3. All internal roads shall be made pucca & shall be maintained properly. Dust, muck & sludge generated due to transportation on the road shall be cleaned and disposed off properly. Industry shall maintain good house keeping within mine lease area. Industry shall ensure the transportation of ore in duly covered vehicles.
4. Industry shall use fly ash brick, fly ash blocks or fly ash based products in their construction/repairing activities.
5. Industry shall submit monitoring report of effluent regularly.
6. Wide green belt of broad leaf local species shall be developed along the mine lease area. As far as possible maximum area of open spaces shall be utilized for plantation purposes.
7. Provision of water harvesting system should be provided in the industry premises.
8. Industry shall submit Environment statement to the Board as per provision of Environmental (Protection) Amendment Rule, 1993 for the previous year ending 31st March on or before 30th September every year.
9. Chhattisgarh Environment Conservation Board reserves the rights to revoke the Consent at any time for any violation/non-compliance.

Please acknowledge the receipt of this letter.

1. **NOC No.:** CGWA/NOC/MIN/REN/1/2021/6173
2. **Application No.:** 21-4/1434/CT/MIN/2018
3. **Category:** (GWRE 2017) Safe
4. **Project Status:** Existing With Additional Ground Water Requirement
5. **NOC Type:** Renewal
6. **Valid from:** 28/03/2021
7. **Valid up to:** 27/03/2023
8. **Ground Water Abstraction Permitted:**
   - Fresh Water: 5.00 m³/day, 1550.00 m³/year
   - Saline Water: m³/day, m³/year
   - Dewatering: m³/day, m³/year
   - Total: m³/day, m³/year
9. **Details of ground water abstraction /Dewatering structures**
   - Total Existing No.:5
   - Total Proposed No.:1
   - Abstraction Structure: DW, DCB, BW, TW, MP, PMu

10. **Ground Water Abstraction/Restoration Charges paid (Rs.):** 1238.00

(Compliance Conditions given overleaf)

This is an auto generated document & need not to be signed.
Validity of this NOC shall be subject to compliance of the following conditions:

Mandatory conditions:

1. Installation of tamper-proof digital water flow meter with telemetry on all the abstraction structures shall be mandatory for all users seeking No Objection Certificate and information regarding their installation shall be communicated to the CGWA within 30 days of grant of No Objection Certificate.

2. Proponents shall mandatorily get water flow meter calibrated from an authorized agency once in a year.

3. Construction of purpose-built observation wells (piezometers) for ground water level monitoring shall be mandatory as per Section 14 of Guidelines. Water level data shall be made available to CGWA through web portal. Detailed guidelines for construction of piezometers are given in Annexure-II of the guidelines.

4. Proponents shall monitor quality of ground water from the abstraction structure(s) once in a year. Water samples from bore wells / tube wells / dug wells shall be collected during April/May every year and analysed in labs, accredited laboratories for basic parameters like carbon and nitrates, heavy metals, pesticides and organic compounds etc. Water quality data shall be made available to CGWA through the web portal.

5. In case of mining projects, additional key wells shall be established in consultation with the Regional Director, CGWB for ground water level monitoring four (4) times a year (January, May, August and November) in core as well as buffer zones of the mine.

6. In case of mining project the firm shall submit water quality report of mine discharge / seepage from Govt. approved / NABL accredited lab.

7. The firm shall report compliance of the NOC conditions online in the website (www.cgwa-noc.gov.in) within one year from the date of issue of this NOC.

8. Industries abstracting ground water in excess of 100 m3/day shall undertake annual audit through certified auditors and submit audit reports within three months of completion of the same to CGWA. All such industries shall be required to reduce their ground water use by at least 20% over the next three years through appropriate means.

9. Application for renewal can be submitted online from 90 days before the expiry of NOC. Ground water withdrawal, if any, after expiry of NOC shall be illegal & liable for legal action as per provisions of Environment (Protection) Act, 1986.

10. This NOC is subject to prevailing Central/State Government rules/laws/orders or Court orders related to construction of tube well/ground water abstraction structure/change or conservation structure/change of effluents or any such matter as applicable.

General conditions:

11. No additional ground water abstraction and/or de-watering structures shall be constructed for this purpose without prior approval of the Central Groundwater authority (CGWA).

12. The applicant shall seek prior permission from CGWA for any increase in quantum of groundwater abstraction (more than that permitted in NOC for specific period).

13. Proponents shall install rainwater harvesting in the premises as per the existing building bye laws in the premises.

14. The project proponent shall take all necessary measures to prevent contamination of ground water in the premises falling which the firm shall be responsible for any consequences arising therefrom.

15. In case of industries that are likely to contaminate the ground water, no recharge measures shall be taken up by the firm inside the plant premises. The runoff generated from the rooftop shall be stored and put to beneficial use by the firm.

16. Wherever feasible, requirement of water for greenbelt (horticulture) shall be met from recycled / treated waste water.

17. Wherever the VOC is for abstraction of saline water and the existing wells (s) is are yielding fresh water, the same shall be sealed and new tubewell(s) tapping saline water zone shall be constructed within two months of issue of NOC. The firm shall also ensure safe disposal of saline residue, if any.

18. Unexpected variations in flow of ground water into the mine(s) if any, shall be reported to the concerned Regional Director, Central Groundwater Board.

19. In case of violation of any NOC conditions, the applicant shall be liable to pay the penalties as per Section 50 of Guidelines.

20. This NOC does not oblige the applicants or their obligation / requirement to obtain other statutory and administrative clearances from appropriate authorities.

21. The issue of this NOC does not imply that other statutory/administrative clearances shall be granted to the project by the concerned authorities. Such authorities would consider the project on merits and take decisions independently of the NOC.

22. In case of change of ownership, new owner of the industry will have to apply for incorporation of necessary changes in the NOC with documentary proof within 60 days of taking over possession of the premises.

23. This NOC is being issued without any prejudice to the directions of the Honourable NGT spot orders in cases relating to ground water or any other related matters.

24. Proponents, who have installed/existing artificial recharge structures in compliance of the NOC granted to them previously and have achieved atleast of upto 50% (fifty percent) in the ground water abstraction charges/ground water restoration charges, shall continue to equally maintain artificial recharge structures.

25. Industries which are likely to cause ground water pollution e.g. Tannery, slaughterhouses, dye, Chemical, Petrochemical, Coal washers, pharmaceutical, other hazardous units etc. (as per CPCB list) need to undertake necessary well head protection measures to eliminate prevention of ground water pollution as per Annexure III of the guidelines.

26. In case of new infrastructure projects having ground water abstraction of more than 20 m3/day, the firm/entity shall ensure implementation of dual water supply system in the projects.

27. In case of infrastructure projects, paved parking area must be covered with interlocking/perforated tiles or other suitable measures to ensure ground water infiltration/harvesting

28. In case of coal and other basic metal mining projects, the project proponent shall use the advance dewatering technology (by construction of series of dewatering abstraction structures) to avoid contamination of ground water.

29. The NOC issued is conditional subject to the conditions mentioned in the Public notice dated 27.01.2021 failing which penalty/cancellation of NOC shall be imposed as the case may be.

30. This NOC is issued subject to the clearance of Expert Appraisal Committee (EAC) (if applicable).

(Non-compliance of the conditions mentioned above is likely to result in the cancellation of NOC and legal action against the proponent)
